◆ Operating instructions

Please connect the equipment as shown in the following figure before using it.

- ① Connect the power adapter to the video conferencing equipment and press the power button to turn on the device. The light ring lights up and the running light indicates that the device is booting up. A prompt tone is played when the boot-up is complete.
- ② Connect the USB cable to the computer and press the mode switch button to select the desired display layout to output.

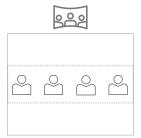

- ③ Open the video conferencing platform (such as Tencent Meeting, Zoom, Microsoft Teams, etc.) to join the remote video conference and select the corresponding panoramic camera device driver.
- The volume can be controlled by the computer or remote control, and the microphone can be muted by the mute button.
- ⑤ Turn off the device and disconnect the power when finished.

Note: This device needs to be connected to a 12V power supply to function properly!

Mode Description

Panoramic mode:

Four camera splicing, 360 panoramic high-definition display. This mode does not have Al functions.

2 Close-up mode:

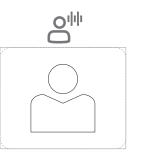

In the panoramic view, select a specific area for display. Use the remote control to zoom in and out (5 levels) and move up, down, left, and right to select an area. The selected area has a fixed 16:9 aspect ratio. This mode does not have Al functions.

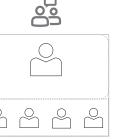

3 Voice tracking mode:

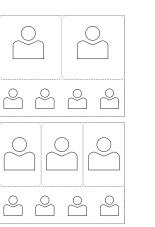

It has DOA sound source positioning recognition and displays the person speaking in full screen. The speaker will switch in 3 seconds automatically.

④ Discussion mode:

The 360 panoramic view is displayed at the bottom of the screen. The top shows an automatic layout of 1-3 speakers. If someone is not speaking, they will not be displayed. When more than 3 speakers are present, the fourth person speaking is automatically replaced by the person who spoke least recently, with dynamic entry and exit effects.

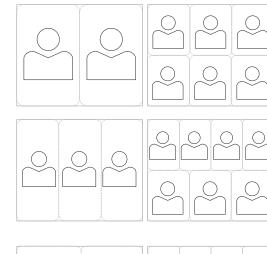

⑤ Intelligent gallery mode:

- · Automatically identify people and automatically layout display, that is, 1–8 people have different layouts, with a maximum of 8 people.
- · When the person moves a certain distance, it will automatically track and keep the person's head centered, with dynamic entry and exit effects when switching.

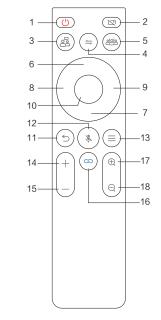

◆ Remote control function description

Remote control pairing:

Press and hold the device's wireless connection button for 8 seconds to enter remote control pairing mode. Then, press and hold the remote control's wireless connection button for 3 seconds. If there is a prompt tone, it means that the device is connected to the remote control, and the device can be controlled by using the remote control.

Description

◆ Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

♦ Non-modification Statement:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

♦ ISED Radiation Exposure Statement for Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.

- 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- L'é metteur/r é cepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d' Innovation. Sciences et D é veloppement é conomique Canada applicables aux appareils radio exempts de licence. L'exploitation est autoris é e aux deux conditions suivantes :
- 1.L' appareil ne doit pas produire de brouillage;
- 2.L' appareil doit accepter tout brouillage radio é lectrique subi, mê me si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with ISED RSS-102 radiation exposure limits set forth for an uncontrolled

environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

Pour se conformer aux exigences de conformit é CNR 102 RF exposition, une distance de s é paration d'au moins 20 cm doit ê tre maintenue entre l'antenne de cet appareil ettoutes les personnes.

Hereby, Guangzhou Shirui Electronics Co., Ltd. declares that the radio Equipment is in compliance with Directive 2014/53/EU.

This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By the appropriate disposal of this product you also help in preventing potentially negative consequences for the environment and human health. The recycling of materials helps, preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality, local waste disposal center or the store where the product was purchased.
