Re: Request of Confidentiality

Pursuant to Sections 0.457(d)(1)(ii) and 0.459 of the Commission's Rules, the Applicant Hunter Industries (1940 Diamond street, San Marcos, CA 92069) hereby requests confidential treatment of information accompanying as outlined below, with regard to WVC and WVP FCC grants:

Schematics, Operating Description, Block Diagrams, Internal Photos (inside can)

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors.

Regarding internal photos, the proprietary RF circuitry is normally sealed inside a welded metal shielding enclosure, and not viewable without destroying the unit. These internal photo's divulge a large amount of development effort and intellectual property. We request that only internal photo's not showing the circuitry inside the shielding enclosure be public, and those showing the circuitry inside the enclosure be held confidential.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Woytowicz", with a stylized flourish at the end.

Peter Woytowicz
