Re: Extension of Agere Systems Nederland Wireless LAN product,
FCC ID: IMRWLPCE2411R

Dear Sir/Madam,

Please find enclosed Application Form for Equipment Authorization and corresponding documentation as per attached list, for the extension of the ref. grant with an antenna as specified below:

Directional antenna from TELEX, model 2417N
Antenna gain with fixed cable (30''): 6.5 dBi

Sincerely yours,

Bert Vos, Regulatory Certifications

Encl. See attached table

cc:

Date: 14Feb01

CONTENTS:

1. Application letter

2. RF Exposure information:

In the original application the following statement has been given, to be printed in the manual:

To comply with FCC RF exposure compliance requirements, the following antenna installation and device operating configurations must be satisfied:

- **with portable or mobile configurations using the integral antenna, a separation distance of less than 2.5 cm may be maintained between the antenna(s) and any person's body (including hands, wrists, feet and ankles)**
- **with mobile configurations using approved external antenna, a separation distance of at least 20cm (8 inches) shall be maintained between the antenna and the user. The transmitter shall not be co-located with other transmitters or antennae.**

The applicable new antenna is covered by the second bullet, and thus no change required in the already available text.

3. FC test report:

- Report from Senton, no. 56305-20086-3 on use of Telex 2.4 GHz WLAN Directional Antenna.
- File 56305-20086-3 Annex A with photographs of EUT
