Subject: Installation restriction (SIMPAS RFID R/W - FCC-ID: JUPSMSE013)

To whom it may concern:

The device "SIMPAS RFID R/W" (Part No. SMSE013) is only approved for installation on agricultural machines. The power supply from an AC source is not permitted. The system is designed to be operated only with 5 VDC supplied by a "SIMPAS Meter" ECU, which is operated on the 12 VDC board net of the machine. The FCC certification is invalidated if an AC main power supply is used."

Sincerely,

A handwritten signature in black ink that reads 'Jeff Mallari'. The signature is written in a cursive style and is positioned above a horizontal line.
