

Wi-Fi Setting
Move to "Wi-Fi", turn on the Wi-Fi network from the **upper right corner**. System will start scanning available Wi-Fi networks around you automatically.

Backup & reset
Move to "Backup & reset", press to enter into factory data reset. You can erase all data on the media box

UPDATE:  move to "UPDATE" → Select → Choose file

Insert micro SD Card/please make sure the upgrade file on the micro SD Card flash drive's root directory),click the upgradeicon,click local update,the systemwill automatically run to upgrade the program and restart after the upgrade is completed(Note:in the process of system upgrades do not power outages,Additionally,android is an open platform, research and development of different companies is different,So don't upgrade is not our company's software,in order to avoid system damage.

Troubles hooting

Under

Under no circumstances should you try to repair the TV BOX by yourself, as this will invalidate the warranty. Do not open the as there is a risk of electric shock. TV BOX If a fault occurs, first check with points listed below before taking the TV BOX for repair. If you are unable to remedy a problem by following hints, consult your dealer for help.

[illegible]

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not actually occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
