

Post Market Surveillance of JPZ0137 – Attestation of Sales and Installation Manual / Packaging Label Update

Date: 3-May-2022

To: Federal Communications Commission
7435 Oakland Mills Road
Columbia MD 21046

This letter is to confirm the following regarding the amount of past and future sales of affected models under JPZ0137:

Past sales: 717 units

Booked sales: 1,297 units (not shipped)

In addition, all new production units will include an updated installation manual and packaging label that includes the FCC ID number. Due to the limited space on the battery door of the motor drive, placing a FCC ID label is not possible. In addition, potential contact issues may arise due to the label no longer properly adhered and interfering between the battery and contact.
