

IC-30CQ 15W

尺寸: 280*80mm

User Manual

Wireless Charger

Product Features

- 1.Standby: No indicator light.
- 2.Charging: No indicator light.
- 3.Fully Charged: No indicator light.
- 4.Built-in strong magnets, easier for one-hand operation.
- 5.FOD function: when put metal or magnet objects on the charger, the phone stops charging.
- 6.Perfect protective function based on over-voltage, over-current, over-temperature and short-circuit protection.

Specifications

Input: DC 9V/2.5A,5V/2A
Output: 15W/5W
Product Standard: Qi2
Charging Distance: $\leq 10\text{mm}$
Charging Efficiency: $\leq 80\%$
Product Dimension: 58.3*26.8*58.3mm
Product Material: PC+Aluminum Alloy

Fast wireless charging requires QC or PD adapters.

Attention

- 1.Please do not vigorously extrude or collide.
- 2.Please do not dismantle or put it into fire or water when the product is power on,to avoid short circuit or leakage.
- 3.Please do not use it in severely high temperature,high humidity or corrosive environment,to avoid damage to the circuit leakage.
- 4.Please do not put the magnetic strip or chip card (Such as ID card,bankcard etc.) on the charging pad to avoid to cause magnetic card lose efficacy.
- 5.Please do not put the metal (Such as coin etc.) on the charging pad when charging,to avoid damage from heating.

Note:This product is applicable to all Qi standard wireless charging phones,other phones need an external receiver for wireless charging function.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
