To FCC

FCC ID: 2AG32CN6671 FCC ID: 2AG32EG7035

Product Name: LTE Indoor CPE Product Name: LTE Outdoor CPE

Product Model: CN6671 Product Model: EG7035

Frequency Range: 3650 - 3700 MHz Frequency Range: 3650 - 3700 MHz

Max Antenna Gain: 5 dBi

Max Antenna Gain: 19.5 dBi

CPE uses a LTE module. By design, it supports band 42 & 43. In order to meet the requirements, shielded by the software, we make it only support the frequency band 43 (3650 MHz - 3700 MHz).

CN6671 and EG7035 have the same LTE module. This module has the same operating frequency, power supply regulation and control software. In other words, the two different models of products, their LTE launch parameters are the same. The indoor CPE uses low gain of the antenna, the outdoor CPE uses high gain of the antenna. Different antenna configuration make them used in different environments.
