

Wireless Charger Instruction Manual

Please read the following carefully before using this device to ensure safe and proper usage.

Package Contents

Input: 5V/2A,9V/2A
Output: 5W/7.5W/10W/15W Max

Instruction

- Ensure that your phone supports wireless charging.
- Connect the wireless charging pad to the certified AC adapter using the charging cable provided.
- Once the wireless charging pad is powered, the indicator light will flash white twice, then the indicator light will go out and enter standby, means the wireless charger is workable.
- When using wireless charging, the indicator light will glow white.

In order to achieve the best charging performance, we recommend that use the adapters that support QC or PD.

Note: if the indicator light is flashing white, it means the FOD technology (Foreign Object Deltction) has detected an unknown object between the wireless charging pad and the phone (The wireless charging pad will not activate until this object has been removed).
