6 Indicator lights
7 Reset button
8 Power port

Vc1 key UI indicator Description

Press and hold the key for 10 seconds	The device is reset, the red and blue lights flash alternately, and the horn gives a short sound
Power on and not paired (or WiFi is disconnected)	The blue light will flash slowly
WiFi configuration is successful (start to allow data stream and recording)	Blue light is always on
WiFi configuration is successful (turn off allow data stream and recording)	All lights are off
Homekit paired successfully	Blue light flashes 5 times
Upgrade	Blue flash
In video recording (real-time data stream or recording)	Red light is always on
Short press of key	No function

Warm note:
Please make sure your router is connected to Internet.

Easy Set Up

Step1 Add accessory

Note: the device only supports the addition and use of homekit platform under IOS system. Please use 2.4G WiFi access point to configure the device. The device does not support 5gwifi access point. Please open the "home" app in the IOS system, select "+", scan the setup code on the body or package as required, and add the device.

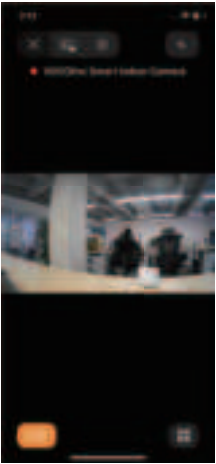

You can also search for "VOCOLinc" APP in the APP Store, and add devices to the APP.

Step2 Using and configuring accessory

After adding the device, you can see the device and image preview in the home interface.

Click preview to enter the full screen state. You can set the image preview configuration in the full screen state. After entering the settings, you can set specific functions.

Step3 Accessory OTA and pan&tilt control

Due to the limitation of homekit platform, if the device needs to upgrade OTA or control the pan tilt rotation, it needs to be controlled through the vocolinc app.

Safety Warnings

- For indoor use only
- Unplug from VC1 before cleaning
- DO NOT clean with liquid
- DO NOT use in wet or damp areas
- Keep children away from VC1
- DO NOT use the device when the casing is broken

FCC Declaration

Caution:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's

authority to operate the equipment.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

IC Declaration

Caution:

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. In order to avoid the possibility of exceeding theISED radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

L'appareil ne doit pas produire de brouillage;
L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Déclaration d'exposition RF:
L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
