

Flat panel manual

To users: Thank you for purchasing rixiao photoelectric products. Please read the manual carefully before installation and use.

Installation instructions: Before installation, be sure to cut off the power supply to protect the safety of operators.

Installation steps

1. Remove the corresponding gusset plate from the ceiling where the lamp is installed;
2. Connect the power cord between the lamp body and the driver;
3. Connect the power cord according to the polarity direction of the driver;
4. Tuck the lamp body into the keel groove where the buckle plate is removed
5. Lamps can also be installed on other solid objects

Safety precautions

1. The power supply should not exceed the specified range (input voltage range: 100-240V, frequency: 50 Hz);
2. Do not install the lamp on the open air, inclined place or unsound objects
3. Do not use with dimmer and electronic switch
4. In order to ensure the safety, maintenance and inspection of lamps and lanterns, please entrust electrical professionals
5. When the lamp is abnormal, please cut off the power supply quickly and contact the sales shop

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
