Dimensions (W x H x D)	176 x 90 x 183.5 mm / 6.9 x 3.5 x 7.2 in	Sound pressure level (SPL)	max. 112 dB
Weight	298 g / 0.66 lb / 10.51 oz	Total Harmonic Distortion (THD)	< 3% (1 kHz, 92 dB SPL, 150 mVrms)
Standby streaming / music	up to 20 hours	Speaker principle	Dynamic, closed
Sleep mode	up to 24 days	Microphone Pick-up pattern	Bi-directional ECM
Charging time	approx. 1.3 h	Microphone sensitivity	-38 dBV / Pa
Charging voltage	max. 5.5 V / max. current 400 mA	Bluetooth	version 5.2
Battery	built-in lithium polymer / 3.7 V / 335 mAh	Transmission frequency	2402 MHz to 2480 MHz
Connector	Console cable: 1 x 3.5 mm audio jack 4 pole; length: 1.5 m USB-A to USB-C cable; length 2 m	Range	up to 15 m
Microphone frequency response	100 Hz – 8,000 Hz	Output power	max. 12.5 dBm (EIRP)
Speakers	50 Hz – 20,000 Hz	Temperature range (operating)	10 °C to +40 °C / +32 °F to +104 °F
		Relative humidity	10-80%

Statements regarding FCC and Industry Canada

This device complies with Part 15 of the FCC rules & Innovation, Science and Economic Development Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference; and
- 2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment has been tested and found to comply with the limits for a Class B digital device of the FCC Rules, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in an installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

Changes or modifications made to this equipment not expressly approved by DSEA A/S may void the FCC authorization to operate this equipment.

RF Radiation Exposure Information

This equipment complies with FCC & Innovation, Science and Economic Development Canada radio frequency exposure limits for an uncontrolled environment.

Further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Use of other accessories not verified by the manufacturer may not ensure compliance with RF exposure guidelines.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Déclaration requise par la d'Innovation, Sciences et Développement économique Canada

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Information sur l'exposition aux radiofréquences

Cet équipement est conforme aux limites d'exposition aux rayonnements d'Innovation, Sciences et Développement économique Canada établies pour un environnement non contrôlé.

L'utilisation d'autres accessoires non homologués par le fabricant remet en cause la conformité des normes imposées par la d'Innovation, Sciences et Développement économique Canada.

Une réduction supplémentaire de l'exposition aux RF peut être obtenue si le produit peut être maintenu aussi loin que possible du corps de l'utilisateur ou si l'appareil est réglé sur une puissance de sortie inférieure, si cette fonction est disponible.

Ce transmetteur ne doit pas être placé au même endroit ou utilisé simultanément avec un autre transmetteur ou antenne.
