TS6389

marvo Ai Pro TWS Earphone

Product Parameters	
Core	Actions
Chip	ATS3015P
Type	BT headset
ENC	single mic support
Waterproof	IPX4
Channel	dual
Control	touch
BT Version	5.4
TYP	~88dBV
BT range	≥ 10m
Amp type	built-in Chip
Response	20Hz - 20KHz
Speaker	Φ10MM/32Ω
Antenna	ceramic
Charging box	500mAh
Headset battery	40mAh
Overvoltage protection	yes (6V limit)
Music time	~6h (80% volume)
Talk time	~5h (80% volume)
Charging Time	case ~2h, headphones ~1.5h

Play/pause music
Double-click the left/right function key

Answer
Single-click the left/right function key

www.marvo-tech.com

: SOUND

Start AI-driven smart dialogue
Long press the left/right ear function key for 2S to start/turn off the smart dialogue (single-click the left/right function key for 1S)

Clear pairing
The earphones are successfully paired. Press and hold L/R touch controls for 4 seconds to clear pairing information. The reset function only triggers when both earphones are on and interconnected, not with a single earphone, and connecting a Bluetooth device does not trigger a reset when not connected

Product Parameters	
Power on	Open the top cover of the charging box, take out the earphones and turn them on automatically
Power off	Put them back in the charging box, and the earphones will turn off automatically
Mutual pairing state	The earphones will automatically pair and connect after turning on
Enter device pairing state	The earphones will turn on, and the left and right ears will automatically connect to each other and enter the pairing state with the mobile phone.
Connect device successfully	After the mobile phone searches for the Bluetooth pairing name, click the pairing name to connect and the connection will be successful
Disconnect	1. The earphones are out of the Bluetooth signal range and enter the pairing mode. At this time, the earphone pairing name can be retrieved by other devices. If it exceeds 3 minutes, the left and right earphones will turn off at the same time. 2. Manually disconnect the Bluetooth device: The earphones enter the search pairing mode. At this time, the earphone pairing name can be retrieved by other devices. Turn on the device Bluetooth to automatically reconnect
Auto reconnect	Manually turn off the Bluetooth device or the earphones are out of the Bluetooth signal range, turn on the device Bluetooth or return to the connection range within 3 minutes, automatically reconnect, and the connection is successful
Reconnection failed	3 minutes Bluetooth pairing timeout or reconnection failure automatically turns off

Troubleshooting
In case of incorrect operation follow the steps below:
- Check the integrity of the connectors;
- Check the connection to the computer;
- Check your computer settings;
- Disconnect and reconnect the equipment; restart the computer.

If the problem persists, please contact your local seller.

General Information
- Unauthorized repairs or disassembly of the product will void the warranty and may cause its damage.
- This product is safe and complies to EU requirements.
- This product is manufactured conforming with the European RoHS standard. This standard was introduced to reduce the amount of electrical and electronic waste emitted into the atmosphere.
- Using the WEEE symbol (the crossed-out bin) indicates that the electrical and electronic equipment inside the package can be recycled. When recycling waste properly, you protect the environment and people health. Segregated household waste collection, aids recycle materials and components used for the production of this device. For detailed information about recycling, please contact your retailer or a local authority.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
