WLAN Confirmation No: EA428611  
CDMA Confirmation No: EA739927

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046 USA

Subject: Authority to Act as FCC Agent and Request for Confidentiality  
Panasonic Personal Computer Model CF-18 Family With Intel WLAN and Sierra CDMA  
FCC Certification for FCC ID: ACJ9TGCF-189

To Whom It May Concern:

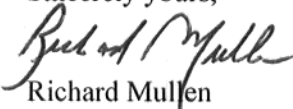

On behalf of Applicant Matsushita Electric Industrial Co., Ltd. and their agent Matsushita Electronic Corporation of America, we hereby authorize PCTEST Engineering Laboratory, Inc., to act on our behalf in matters relating to FCC equipment authorization, including the signing of documents relating to these matters. Any and all acts carried out by PCTEST on our behalf shall have the same effect as acts of our own.

This project represents Panasonic Personal Computer Model CF-18 Family (CF-18mk2) to be marketed under FCC ID: ACJ9TGCF-188. This product will always be marketed with: (1) CPU type Pentium-M-1.1 GHz; (2) Intel WLAN (b+g) Module Model WM3B2200BG (FCC ID: PD9WM3B2200BG) with Part 15C operation within 2412~2462 MHz at 56.4 mW conducted RF output power; and (3) Sierra CDMA Module Model SB555 (FCC ID: N7NSB555) with Part 22H operation within 824.70~848.31 MHz at 0.271 watts ERP and Part 24E operation within 1851.25~1908.75 MHz at 0.377 watts EIRP conducted RF output power. These wireless devices will be installed under our control and this final configuration will always be marketed under the subject FCC ID. The maximum worst-case measured SAR test results were 0.04 W/kg CDMA Body Lap and 0.06 W/kg PCS Body Lap at zero spacing.

The WLAN has 2 pattern antennas with left antenna TX/RX Inverter F Type with 2.59 dBi; and right antenna RX only Inverter F Type with 1.42 dBi antenna gain. The GPRS has pattern antenna Inverter F Type with 2.15 dBi antenna gain. These two transceivers will be co-located and may transmit simultaneously.

In accordance with provisions of Section 0.457(d) of the Commission's Rules and Section 552(b)(4) of the Freedom of Information Act, we request confidentiality for both transceivers' exhibits for Operation Description, Parts Lists and Tune-Up Procedure, Block Diagram(s) and Schematic Diagram(s). The WLAN is not user adjustable and does not have a Tune-Up Procedure. These exhibits contain proprietary, confidential and trade secrets material, which would not be routinely made available for public inspection. Please mail both the equipment authorization grants and your acceptance letter for withholding from disclosure proprietary information to the undersigned's attention at the below-described address in New Jersey and not in Japan.

Sincerely yours,

Richard Mullen  
Group Manager  
Matsushita Electric Corporation of America  
Product Safety & Compliance Division
