A photograph of a disassembled mobile phone, showing the internal components. The main circuit board is visible, featuring various chips, capacitors, and connectors. The battery is located on the left side of the board. The camera module is positioned on the right side. A ruler is placed below the phone for scale, indicating the size of the components. The phone is oriented vertically, with the top of the device at the top of the image. The background is a plain, light-colored surface.

A black and white photograph of an open, empty metal safe. The safe is positioned horizontally, with its two doors swung open to reveal the interior. The interior is divided into several compartments. On the left side, there is a large section with a grid of small drawers or compartments. The right side features a large central area with a grid of small drawers or compartments. The safe is placed on a surface next to a ruler for scale. The ruler shows measurements in inches and centimeters. The safe is empty, and the interior is visible. The safe is made of metal and has a sturdy appearance. The ruler is placed vertically to the right of the safe, showing measurements from 0 to 30 inches and 0 to 100 centimeters. The safe is open, and the interior is visible. The safe is empty, and the interior is visible. The safe is made of metal and has a sturdy appearance. The ruler is placed vertically to the right of the safe, showing measurements from 0 to 30 inches and 0 to 100 centimeters.
