

Limited Modular Approval Checklist  
FCC ID: **N7NWP76B**

| Item | Requirements                                                                                                                                                                                                                                                                                                                                                            | EUT                                                                                                                      |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| 1    | The radio elements must have the radio frequency circuitry shielded                                                                                                                                                                                                                                                                                                     | Module RADIO elements are shielded. Please see submitted external photograph exhibits                                    |
| 2    | The module must have buffered modulation/data inputs                                                                                                                                                                                                                                                                                                                    | Module chipset design incorporates integrated buffer circuitry                                                           |
| 3    | The module must contain power supply regulation on the module                                                                                                                                                                                                                                                                                                           | Module chipset incorporates voltage regulation to transceiver circuitry                                                  |
| 4    | The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s)                                                                                                                                                                                                               | No applicable to licensed modules                                                                                        |
| 5    | The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                                                                                                                                                                   | EUT conformance testing was performed in a standalone configuration                                                      |
| 6    | The licensed module must have a FCC ID label on the module itself. That FCC ID label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily removed. If not, a second label must be placed on the outside of the final device that contains the following text:<br><b>Contains "FCC ID: N7NWP76B"</b> | Please refer to FCC ID label format. Labeling instruction has been provided in the user manual exhibit(s).               |
| 7    | The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements                                                                                                                                                                                                    | The Module is compliant with all applicable FCC rules. Compliance requirements are stated in the user manual exhibit(s). |
| 8    | The module must comply with RF exposure requirements                                                                                                                                                                                                                                                                                                                    | Compliance with RF exposure requirements is addressed in RF exposure report                                              |

Sincerely,

*Denis Chabot*
