Caution: Any changes or modifications made to this equipment not expressly approved by Honeywell International Inc. may void the authorization to operate this equipment.	MISE EN GARDE: Tout changement ou modification apporté(e) à cet équipement qui n'est pas expressément approuvé(e) par Honeywell International Inc. peut annuler l'autorisation d'utiliser cet équipement.	Mise en garde : tous les changements ou les modifications apportées à cet équipement non expressément approuvées par Honeywell International Inc., peuvent annuler l'autorisation d'utiliser cet équipement.	Attenzione: qualsiasi variazione o modifica apportata a questo apparecchiatura, non espressamente approvata da Honeywell International Inc., potrebbe annullare l'autorizzazione concessa all'utente per utilizzare l'apparecchiatura.	Vorsicht: Von Honeywell International Inc. nicht ausdrücklich genehmigte Veränderungen an diesem Gerät können dazu führen, dass die Betriebserlaubnis für dieses Gerät erteilt.	Precaución: Cualquier modificación o cambio realizado en este equipo, no expresamente aprobado por Honeywell International Inc., puede anular la autorización para utilizar este equipo.	Precaución: cualquier cambio o modificación a este equipo que no esté expresamente aprobado por Honeywell International Inc. puede invalidar la autorización para usarlo.
Atenção: qualquer alteração ou modificação não aprovada expressamente pela Honeywell International Inc. neste equipamento poderá invalidar a autorização de operá-lo.	注意：对本设备进行任何未经 Honeywell International Inc. 明确准许即擅自更改或修改，可能会使操作本设备的授权失效。	注意：凡未經 Honeywell International Inc. 明確准許即擅自變更或改造本設備者，可能無權再操作本設備。	警告：Honeywell International Inc. の明示的な承認なしに、この機器を変更または変更すると、この機器を操作する権限が無効になります。	주의 : Honeywell International Inc.에 의해 확실한 승인을 받지 않은 방법으로 본 장비를 변경 또는 개조하는 경우 장비를 작동할 수 있는 승인이 취소될 수 있습니다.	Внимание! Любые изменения или модификации данного оборудования без одобрения компании Honeywell International Inc. могут привести к запрету эксплуатации данного оборудования.	تحذير قد تؤدي أي تغييرات أو تعديلات على هذا الجهاز غير مصادق عليها من شركة Honeywell International Inc. إلى الغاء ترخيص تشغيل هذا الجهاز.

For body worn operation, this device has been tested and meets the limits regarding human exposure to electromagnetic radiation set forth in related FCC, IC and CE rules, guidelines and standards for use with the following body worn accessory: holster. Use of other accessories may not ensure compliance with the mentioned rules.

802.11 Caution: A Wireless Network Administrator should review the operating restrictions and use with a properly configured access point.

**FC Models: EDA56-0  
FCC Part 15 Subpart B Class B**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 1. This device may not cause harmful interference.  
 2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

If necessary, the user should consult their dealer or an experienced radio/television technician for additional suggestions. Honeywell International Inc. is not responsible for any radio or television interference caused by unauthorized modifications of this equipment or the substitution or attachment of connecting cables and equipment other than those specified by Honeywell International Inc. The correction is the responsibility of the user.

Use only shielded data cables with this system.	Utiliser uniquement des câbles de données blindés avec ce système.	Utilisez uniquement des câbles de données blindés avec ce système. **Model: EDA56-0**  
USA, Canada NRTL Safety

cTUVus listed: UL62368-1 3rd Edition, CSA C22.2 No. 62369-1:19 3rd Edition.

**Warning!** To prevent possible hearing damage, do not listen at high volume levels for long periods.

**Avertissement :** A pleine puissance, l'écoute prolongée peut endommager l'audition de l'utilisateur.

**Microwaves**

The radio in the ScanPal EDA56-0 RF terminal operates on the same frequency band as a microwave oven. Therefore, if you use a microwave within range of the RF terminal you may notice performance degradation in your wireless network. However, both your microwave and your wireless network will continue to function.

**LED Safety**

LEDs have been tested and classified as "RISK GROUP 1 (Low Risk)" to the Standard: IEC 62471:2006.

**Models with Image Engine: S0703**  
Laser Compliance and Precaution

This device has been tested in accordance with and complies with IEC60825-1:2014, 21 CFR 1040.10 and 1040.11, except for conformance with IEC 60825-1 Ed. 3, as described in Laser Notice No. 56, dated May 08, 2019. EDA56-0 devices that include a laser caution label (see far right) affixed to housing are a CLASS 2 LASER PRODUCT. This product has a maximum output of 1 mW at 630-680 nm.

**Caution:** Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

**Mise en garde :** l'utilisation de contrôles ou d'ajustements ou de performance de procédures autres que ceux spécifiés dans la présente peut provoquer une exposition dangereuse au rayonnement.

**CAUTION LASER RADIATION DO NOT STARE INTO BEAM, CLASS 2 LASER PRODUCT, RAYONNEMENT LASER NE PAS REGARDER DANS LE FEUILLAGE APPAREIL À LASER DE CLASSE 2, MAX. INTENSITÉ DE SORTIE 1 MW À 630-680 NM, CONFORME À IEC-60825-1 Ed. 3, as described in Laser Notice No. 56, dated May 8, 2019.**

**激光辐射,勿直视光束,2类激光产品**

**Max: 1mW 630-680 nm 小心**

**RF Exposure Information (SAR)**

This mobile phone meets the government's requirements for exposure to radio waves. This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government and Canadian Government.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the government FCC/IC is 1.6 W/kg and for Europe 2 W/kg. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

**Model EDA56-0**

FCC SAR

The highest reported FCC SAR values for head and body-worn accessory use conditions are: 1.37 W/kg (1g) and 0.69 W/kg (1g).

IC SAR

The highest reported IC SAR values for head and body-worn accessory use conditions are: 1.37 W/kg (1g) and 0.69 W/kg (1g).

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: **HD5-EDA560**.

**Model EDA56-0**

CE SAR

The highest reported CE SAR value for head and body-worn accessory use conditions are: 0.42 W/kg (10 g) and 0.55 W/kg (10g).

For body-worn operation, this device has been tested and meets the ICNIRP guidelines and the European Standard EN62209-2, for use with dedicated accessories. SAR is measured with this device at a separation of 5mm to the body. While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement.

**Caution:** If a body worn accessory is not purchased from Honeywell, the accessory must contain no metal and provide a 1.5 cm (0.6 in) space between the device and the body. Use of antennas and accessories not authorized may void the compliance of this product and may result in RF exposures beyond the limits established for this equipment.

**Informations sur l'exposition RF**

Ce téléphone mobile respecte les exigences du gouvernement en matière d'exposition aux ondes radio. Ce téléphone est conçu et fabriqué de manière à ne pas dépasser les limites d'émission pour l'exposition à l'énergie de radiofréquence (RF) établies par la Commission fédérale des communications des gouvernements américain et canadien.

La norme d'exposition pour les téléphones mobiles sans fil utilise une unité de mesure connue sous le nom de débit d'absorption spécifique ou DAS. La limite du DAS établie par la Commission fédérale des communications FCC/IC est de 1,6W/kg et de 2W/kg pour l'Europe. Bien que le DAS soit déterminé en fonction du plus haut niveau de puissance certifié, le niveau réel du DAS du téléphone en cours d'utilisation peut être nettement inférieur à la valeur maximale. Ceci s'explique par le fait que le téléphone est conçu pour fonctionner à plusieurs niveaux de puissance ainsi que pour utiliser uniquement la puissance requise pour atteindre le réseau. En général, plus vous vous trouvez à proximité d'une antenne de base sans fil, plus la puissance de sortie sera faible.

**Modèle EDA56-0**

DAS FCC

Les valeurs DAS FCC les plus élevées pour les conditions d'utilisation des accessoires portés sur la tête et le corps sont les suivantes: 1.37 W/kg (1g) et 0,69 W/kg (1g).

DAS IC

Les valeurs DAS IC les plus élevées pour les conditions d'utilisation des accessoires portés sur la tête et le corps sont les suivantes: 1.37 W/kg (1g) et 0,69 W/kg (1g).

**Hearing Aid Compatibility (HAC) Consumer Information**

a) This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. In the battery well of this equipment is a label that contains, among other information, a product identifier in the format US: HD5IPNANEDA56-0. If requested, this number must be provided to the telephone company.  
b) The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.  
c) Should you experience trouble with this equipment, please contact Honeywell International Inc, 13509 South Point Blvd, Ste.100, Charlotte, NC 28273, Tel: 800-782-4263 for repair or warranty information. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.  
d) Please follow instructions for repairing if any (e.g. battery replacement section); otherwise do not alternate or repair any parts of device except specified.  
e) This equipment is hearing aid compatible.

**Mise en garde : Si un accessoire de corps n'est pas acheté auprès d'Intermeic, cet accessoire ne doit contenir aucun métal et garantir un espace de 1,5 cm entre l'appareil et le corps. L'utilisation d'antennes et d'accessoires non autorisés peut annuler la conformité de cet appareil et peut causer une exposition aux RF au-delà des limites établies pour cet équipement.**
