A close-up photograph of the RF ANT component on the CP700MV12A PCB. The component is a small, rectangular, gold-colored antenna module. It is mounted on the PCB and is highlighted by a red rectangular box. The text "RF ANT" is written in red above the box. The PCB is white and features various components, including capacitors, resistors, and integrated circuits. The text "CP700MV12A" and "2018-05-23" are visible on the PCB.
