1 Attention

Thank you for choosing the Aooysora AX1 Helmet Bluetooth Headset! To ensure the best possible experience, we recommend thoroughly reading the manual before use. Familiarizing yourself with the instructions will help you maximize its features and functionality while ensuring safe and effective use.

- Fully charge the headset using the supplied USB Type-C charging cable before use.
- Ensure the headset is securely mounted on your helmet.
- Do not touch the headset with sharp objects to avoid scratches or damage.
- Do not expose the headset to open flames to avoid explosion hazards.
- Do not attempt to disassemble the headset to avoid damage.
- Keep the headset away from dust, fire, and moisture.
- Store the headset between -4°F and 140°F (-20°C and 60°C). Avoid extreme temperatures.
- If the headset is not used for a long time, store it in a dry place and charge it regularly (once a month) to ensure it works normally.

High Volume Warning

Listening at high volumes for long periods of time may result in loss of hearing.

2 Introduction

The Aooysora AX1 Helmet Bluetooth Headset, designed for motorcycle riders, features a built-in rechargeable battery and an IP67 waterproof rating, ensuring long-lasting use.

2.1 Product Overview

Charging Time	1.5 h
Standby Time	100 h
Music Time	30 h
Talk Time	40 h
Ambient Light Time	20–25 h
Charging Port	USB Type-C
Power Input	DC 5 V/1 A (not included)
Waterproof Level	IP67

3 Installation Instructions

3.1 Installing the Mic & Speakers Set

<p>1. Make sure that the mic & speakers set is in good condition.</p>	<p>2. Paste the two heightening pads and two speaker fasteners inside your helmet near the ear positions, successively.</p>
	
<p>3. Attach the two speakers to the speaker fasteners. When attaching the speakers, the one with the shorter cable should be installed on the left.</p>	<p>4. Attach the hook fastener to the microphone, and paste the loop fastener inside the helmet. Then, connect them.</p>
	

NOTE

- When choosing the location for the loop fastener, ensure the mic will be positioned at mouth level when wearing your helmet.
- After installing the mic & speakers set, organize the cables and liners for a comfortable wearing experience.

- There may be hook or loop fasteners on your helmet, speakers, and mic. If they are sticky enough, you can use them directly. Otherwise, you will need to remove them and use new ones.
-

3.2 Installing the Headset

1. You can install the headset using either the clip mount or adhesive mount.
 - a) When using the clip mount, clip it to the side of your helmet.
 - b) When using the adhesive mount, wipe the helmet surface clean, remove the protective film from the back of the adhesive mount, then apply it to the helmet surface. Press the adhesive mount for a strong adhesion and wait for 24 hours before installing the headset.
2. Fully slide the headset into the clip mount or adhesive mount.
3. Plug the mic & speakers set into the USB Type-C audio port.

4 Operation Instructions

4.1 Performing Basic Functions

4.1.1 Power ON

Action: When the headset is off, press and hold the **Power** button for 3 seconds.

Voice Prompt: “Power On”

Indicator: Flash red and blue alternately.

NOTE

The headset will automatically shut down if there is no operation for 5 minutes.

4.1.2 Charging the Headset

Uncover the charging port, then insert the supplied USB Type-C charging cable into the charging port and connect it to any of the following power sources:

- DC 5 V/1 A power supply.
- USB output port on your PC, power bank, or other devices.

After fully charged, unplug the USB Type-C charging cable and cover the charging port.

NOTE

- Fully charge the headset before each use.
 - A voice prompt saying “Low Power” will sound every 5 minutes when the headset is powered on but the battery is low.
-

4.1.3 Adjusting the Volume

Increase Volume

When you are on a call or playing music, press and hold the **Volume Up** button.

NOTE

Mega bass sound will be heard when it reaches its maximum volume. Please adjust the volume to a safe level to protect your hearing.

Decrease Volume

When you are on a call or playing music, press and hold the **Volume Down** button.

4.1.4 Power OFF

Action: When the headset is on, press and hold the **Power** button for 3 seconds.

Voice Prompt: "Power Off"

Indicator: Red light on for 1 second, then light off.

4.2 Pairing with a Phone

Action: After the headset is powered on, enable the Bluetooth on your phone, then search for and select the device named "Aoosora AX1."

Voice Prompt: "Connected"

Indicator: Flash blue every 3 seconds.

NOTE

- The distance between the headset and your phone should be within 32.8 ft (10 m) while pairing.
- If the headset has been paired with a phone and you need to change it, disable the Bluetooth on the currently paired phone. Then, enable the Bluetooth on the new phone and follow the instructions above to pair it with the headset.
- If the headset has been paired with your phone, it will automatically reconnect when your phone's Bluetooth is on and within range.
- If the headset and your phone fail to reconnect, restart both devices and try again.

4.3 Pairing with Two Phones

- ❶ Prepare phone A and phone B.
- ❷ Power on the headset.
- ❸ Pair the headset with phone A.
- ❹ Turn off Bluetooth on phone A.
- ❺ Pair the headset with phone B.
- ❻ Turn on Bluetooth on phone A.
- ❼ This headset is now paired with the two phones.

4.4 Activating Voice Assistant

After the headset is paired with your phone and not on a phone call, double-press the **Volume Down** button.

4.5 Adjusting the Ambient Light

After the headset is powered on, each time you double-press the **Volume Up** button will cycle through the modes: multi-color light switching → white light steady on → multi-color light flowing → green light steady on → sky-blue light steady on → light off.

4.6 Phone Function

Turn on/off Auto-answer

Action: When the headset is on, press and hold the **Volume Up** and **Volume Down** buttons to enable/disable auto-answer.

Voice Prompt:

“Automatically Answer Turned On”

“Automatically Answer Turned Off”

NOTE

The auto-answer function is enabled by default.

Answer a Phone

When the headset is paired with your phone and a call comes in, press the **Power** button.

NOTE

When the auto-answer function is enabled, the headset will automatically answer incoming calls after 15 seconds of no response.

Hang Up

Press the **Power** button during a call.

Reject a Call

When the headset is paired with your phone and a call comes in, press and hold the **Power** button for 2 seconds.

Redial the Last Number Called

When the headset is paired with your phone, double-press the **Power** button.

4.7 Music Function

Play/Pause Music

After the headset is paired with your phone, open a music player on your phone, then press the **Power** button to play music and press it again to pause music.

Play Previous Track

While music is playing, press the **Volume Down** button.

Play Previous Track

While music is playing, press the **Volume Up** button.

FCC ID

NOTE: This equipment has been tested and found to comply with the limits for Class B digital devices, in alignment with section 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
