Important Safety Instructions

• This product is rated as IP65 waterproof. It can be used outdoors, but immersion in water is not recommended.
• This power adapter is rated as IP44 waterproof. It can be used outdoors, but immersion in water is not recommended. An outdoor socket with a waterproof cover is preferred.
• Tighten up the waterproof cap before using the light.
• The lamp bead and other internal parts of the product cannot be replaced. If damaged, please contact eufy@ support.com for a product replacement.
• Do not allow children to assemble or install this product.
• Be careful with the sharp ground stakes of the product.
• Avoid installing this product in a closed environment or near large heat sources.
• The recommended temperature range for devices and accessories is −20°C to 45°C (−4°F to 113°F) .
• Unless specifically indicated that it is safe to do so in the user guide or instruction manual, do not use this device in an environment that exceeds the recommended low or high temperature.
• Unless specifically indicated that it is safe to do so in the user guide or instruction manual, avoid exposing your device to direct sunshine or excessively wet environments.
• For pluggable equipment, the socket outlet should be easily accessible.
• Use only the adapter provided by the manufacturer. Using unauthorized adapters may cause danger and violate the authorized use of the device or the warranty article. External dimmers cannot be used with this product.

Notice

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the
