

Date: Dec 2, 2022

SUBJECT: C2PC Cover Letter

To Whom It May Concern:

We, the undersigned, hereby advise that the Silicon Labs **FCC ID: XF6-M4SB** WiFi/BT module is included in the Smart Skate product (SMSK V2.1) for the purpose of enabling portable wireless connectivity while the product is in use in its intended application (while skating).

The Smart Skate product model SMSK v2.1 has passed SAR testing (please see the report in the document package).

Silicon labs has provided Scorched Ice with authorization to make a Class II Permissive Change in the use of FCC ID: XF6-M4SB (please see authorization letter from Silicon Labs included in this documentation package).

No modification has or will be made to the Silicon Labs module.

Regards,

A handwritten signature in black ink, appearing to read "B Macdonald". The signature is fluid and cursive, with the first letter of the last name being a large, stylized 'M'.
