Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: 2A7VD-H6840

Applicant: Shenzhen Qianyan Technology LTD

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2A7VD-H6840 originally granted on 08/27/2024.

The change under this application is to:

1. Add models: "H8840". (Only the software APP version is different from "H6840". (Different APP versions have different lighting effects.))

Model differences:

Model No.	Adapter	Software Version
H6840	Manufacturer: Dongguan Rico Electronic Co.,Ltd Model: RKPO-UL0503000IP44-3 Input: 100-240V~50/60Hz 0.5A Output: 5V= 3000mA 15W	6.2.30
H8840 (Only the software APP version is different from "H6840". (Different APP versions have different lighting effects.))		V6.6.10

The changes are not related with the other RF parameters, only conducted emission and radiation spurious emission were retested for model "H8840".

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Xiaopeng Pan", enclosed within a thin rectangular border.
