Dear Mr. Coperich:

Pursuant to your request, Motorola, Inc. is furnishing your office with the RF exposure data for the above referenced portable radio.

Note that the Type II Permissive Change of the filing is a change in the output RF device. The operating characteristics of the radio are unchanged from the original radio design. The radio continues to meet the requirements set forth for RF exposure of portable devices in CFR Title 47, Part 2.1093 even though the radio is categorically excluded from portable devices requiring routine RF exposure testing.

Please direct any future requests to me. My Motorola E-mail address is shown below.

Sincerely,

A handwritten signature in black ink, reading "Robert O. Loving, Jr." in a cursive script.
