3.2 Charge the earbuds
Put the earbuds into the charging case, and the earbuds will power off and go to sleep. During charging, LED light will not flash any more.

4.Operating instructions

4.1 Earbuds connection indicator

1. The earbuds and adapter of this product will match each other first. (If you need to use frequently, please do not wait it at the same time.)

2. Insert the adapter into the device to be connected, and then take the earbuds out of the charging case, which will be connected automatically.

4.2 Earbuds match other wireless devices (such as mobile phones, etc.)

1. Take out the L&R earbuds from the charging case, and they will automatically power on and pair with each other.

2. Once they successfully paired with each other, LED of one earphone goes off and then the other earphone flashes red and blue alternately.

3. Press any of the wireless function on your device and choose Model G1 to pair. The LED light of which the earbuds are with the device.

Note: If you have previously paired the earbuds with a device, they will reconnect with the device automatically when you turn them on.

4.3 Wireless adapter (Connect other devices)

1. Insert the probe to the game console, mobile phone, computer and other devices with audio function. After the connection, the product will enter automatic pairing mode and flash red and blue light alternately.

2. Turn on the wireless earbuds, and then in the pairing mode, bring them close to the wireless adapter and wait for pairing.

3. After the connection is successful, the LED light flashes.
