

Internal Photo

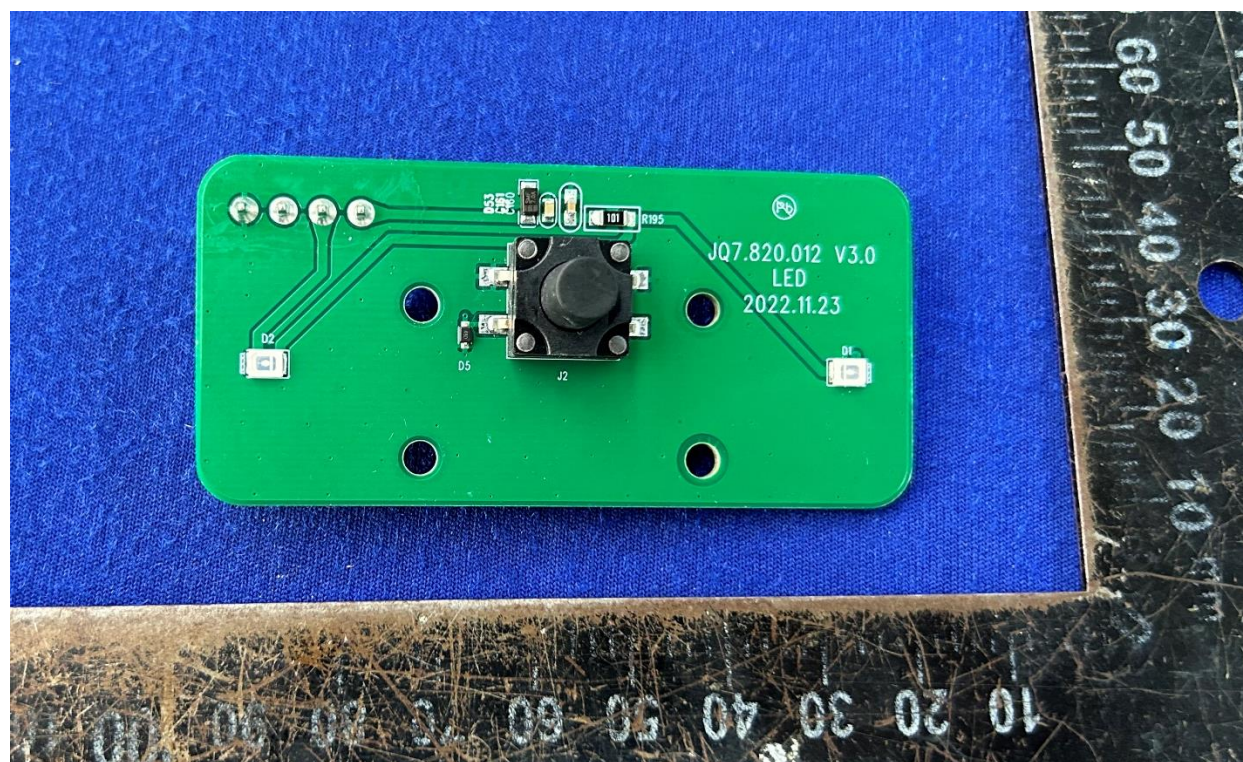

EV100D-40W

Antenna

The image displays two views of a custom electronic enclosure. The left view shows the black interior of the enclosure, which houses a green printed circuit board (PCB). The PCB is populated with various electronic components, including a black power supply unit, a red component, and several capacitors. Wires are connected to the PCB, and a black cable is visible at the bottom. The right view shows the yellow exterior of the enclosure, which has a cutout revealing the internal components. The yellow enclosure is made of a durable plastic material and features a black power supply unit and a green PCB visible through the cutout.
