To Whom It May Concern

Subject: WS900-29 with integrated modular type approved 3G7090/LT7090

The cellular modules 3G7090 or LT7090 will be FCC/IC modular type approved and will bear their own FCC/IC identifiers which will also be placed on the outside of the host as indicated in the product manual.

The host model WS900-29 including the modules 3G7090 or LT7090 has been retested for FCC Part 15 and IEC-003 Class B emissions requirements and also for co-location to ensure RF exposure requirements are met for simultaneous transmission of all RF interfaces present in this configuration (Wi-Fi, Z-wave, PowerG and Cellular).

Should you have additional questions regarding this matter please do not hesitate to contact me directly.

Your truly,

A handwritten signature in black ink, appearing to read 'Dan Nita', is written over a light blue horizontal line.
