

Request for Class II Permissive Change

FCC ID: N6C-SDMAC

Data: August 27, 2018

TO: Federal Communication Commission

This is to request a Class II permissive change for FCC ID: N6C-SDMAC, DTS / NII / DSS originally granted on 04/27/2018.

This time, the module will be used in the portable host device therefore we should perform SAR testing with the host device.

There is no hardware change for the module. Due to satisfy SAR testing requirement, we only reduce 802.11b mode conducted power.

The module's turn up procedure was same as before.

Sincerely,

Name: Lucas Wang

Title: Compliance Leader
