> of 15.21. It must be added to the user's manual. Please respond.

Statement is in fine print on bottom of second page.

>

>

> 10. How was the EUT antenna position adjusted to maximize emissions?

Antenna cannot be moved as it is integrated into the module

>

>

> 11. Was the EUT rotated through three orthogonal axes to maximize
> emissions?

All orthogonal axes were measured. The worst case was recorded.
