

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Radiation Emission Test
Setup (Below 30MHz)**

**Radiation Emission Test
Setup (30MHz to 1GHz)**

Radiation Emission Test Setup (1GHz to 18GHz)	 A photograph showing a radiation emission test setup for the 1GHz to 18GHz range. A white, rectangular test device is placed on a yellow, stepped platform. The device is surrounded by a dense array of blue, pyramid-shaped electromagnetic absorbers. The background consists of a wall made of white, square-shaped absorbers. A red object is visible on the left side of the platform.
Radiation Emission Test Setup (Above 18GHz)	 A photograph showing a radiation emission test setup for frequencies above 18GHz. The same white, rectangular test device is placed on the same yellow, stepped platform. The setup is surrounded by blue, pyramid-shaped electromagnetic absorbers. A blue cable is connected to the device, extending towards the right side of the frame. The background is a wall of white, square-shaped absorbers.

* Means' only test and setup for PART 15C .
