Battery Usage Notices:

- Use 2 pcs of 1.5V AA non-rechargeable batteries for the remote control.
- Use 1 pc of 7.4V rechargeable battery pack for the toy car.
- Rechargeable batteries are for the remote control.
- Do not mix old and new batteries, nor mix different types of batteries.
- Charge the non-rechargeable battery before the first use.
- The charging time is to move their right track.
- The power terminals should not be short-circuited.
- Take out the rechargeable battery from the toy before charging.
- The battery should not be charged for a long time.
- The power terminals should not be short-circuited.
- Regularly check the wire, plug, shell and other components for any damage. Stop using when the damage is found.
- Charge the battery cover with the correct power, and insert the battery as per the correct polarity.
- The toy should only be connected with the power recommended.

Attention: Turn off the power if the toy will not be used for a long time. Please take out the battery from the toy and the remote control if it will be stored for a long time, preventing damage due to the battery leakage.
