RE: FCC Certification
FCC ID: 2AJN7-TP00160AL

To Whom It May Concern:

The module tested and certified under FCC ID: XMR2023EM061KGL, granted on 07/04/2023, is incorporated in the TP00160AL (FCC ID: 2AJN7-TP00160AL) and there is no hardware design change on the module.

For this submission we are filing original test reports that still accurately represent conducted test results under the new conditions described above refer the KDB 996369 D02 Q1 a) 2). The original tests used are list below and only used for valid conducted results.

Module Report	Re-used Data Test Item
SEWM2304000133RG01	Peak to Average Ratio, Occupied Bandwidth, Emission Mask, Band Edge Measurements, Conducted Emissions, Frequency Stability

The new test reports show additional evidence for RF output power and radiated spurious emission results to demonstrate full compliance of both module integrated into the host and host itself.

Thank you for your attention to this matter.

Br,

Kent Liu (authorized representative)
