0.459 Request that submitted material be withheld from Public Inspection

It is requested that the following material be withheld from public inspection:

Description of the ProxGuts, MiniProx and ThinLine II Models, Circuit Functions, how the device operates, Ground System, and Antennas

Block Diagram

Schematic

The 4035/8C ProxGuts Module is the identical electronics board used in the MiniProx and ThinLine II Models.

These materials are considered HID Corporation Proprietary and Confidential.

Revealing the fundamental design for the product to the public and our competition would put us at a competitive disadvantage.

We feel we have a product cost/design advantage over our competition with our MiniProx & ThinLine II Proximity Readers and therefore ask that the above specified materials be withheld from public inspection.
