

Wireless PowerScroll

Super 3-button Cordless Scroll Mouse

The **Wireless PowerScroll** mouse is a 3-button cordless point device that will not cause any cord tangles. It uses **digital radio technology** to communicate flawlessly without pointing directly to your computer. You don't need a clear patch or aim at your computer like an infrared mouse required.

Enjoy enhanced features like: no cord for unlimited movements; auto turn off to save power consumption; **Magic-Scroll** for fast browsing on the Internet and Windows documents; and program the thumb button to assign popular step-saving shortcuts.

Features:

- No cord design gives you unlimited freedom
- Digital Radio Technology eliminates any risk of blind spots
- Fast Browsing through Windows and the Internet without clicking on the scrollbars
- Four customizable buttons for frequently-used program shortcuts
- Instant access to eight Internet and Windows functions with MouseMate software

System Requirements:

- IBM PC Pentium 400 compatible or higher
- Windows Me/2000/98/95/NT, MS-DOS
- Available PS/2 port
- CD-ROM drive

Shipping Information

- Gift box dimensions: 254x199x83 mm
- PCs/CTN: 20 PCs
- CUFT/CTN: 3.81
- PCs/20' Container: 5,020 PCs

Package Contents:

- NetScroll Wireless mouse
- Receiver

- Manual

Available modes:

- PS/2 model

Available date:

- Samples: Nov, 2000
- Products: Dec, 2000

FCC Compliance and Advisory Statement. This hardware device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and the receiver; 3) connect the equipment to an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for help. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulations.

Canadian DOC Statement. This digital device does not exceed the Class B limits for radio noise emissions from digital apparatus specified in the interference-causing equipment standard entitled "Digital Apparatus." ICES-003 of the Department of Communications.
Cet appareil numérique respecte les limites bruits radioélectriques applicables aux appareils numériques de Classe B prescrites dans la norme sur le matériel brouilleur: "Appareils Numériques," NMB-003 édictée par le Ministère des Communications.
This device complies with RSS-210 of Industry and Science Canada. Operation is subject to the following two conditions: 1) this device may not cause interference, and 2) this device must accept any interference, including interference that may cause undesired operation of the device.
