USER'S MANUAL: BLUETOOTH® TECHNOLOGY SPEAKER GET CONNECTED IN 3 QUICK STEPS

Contents: 1- Team Scoreboard Clock with Bluetooth® Technology, 1 - Power Cord

No Tools required

BEFORE YOU BEGIN

Before using this product, read the important Safety and Legal information and follow its instruction. Take a moment before you get started to familiarize yourself with your new Bluetooth® technology speaker.

1. START BLUETOOTH® TECHNOLOGY FEATURE ON YOUR SMARTPHONE

Your phone's Bluetooth® technology feature is off by default. To use your speaker, you must turn on the Bluetooth™ technology feature on your smartphone. On your device under "settings" turn on your Bluetooth® program.

2. PAIR YOUR BLUETOOTH® TECHNOLOGY SPEAKER

Before you can use your speaker, you must pair (link) it to your smartphone for the first time.

Step A - Plug in the clock using the included Power Cord.

Step B - Turn on the Bluetooth® technology speaker. Power switch located on the side of the clock.

Step C - Under "settings" on your device, turn on your Bluetooth® program.

Step D - When your device finds the new Bluetooth® technology speaker, the display will show My Team, please select it to pair it with your smartphone.

When the Bluetooth® technology speaker is successfully paired with your smartphone the blue indicator light on the Bluetooth® technology speaker will change from single long flashes to double short flashes. Once the pairing is complete the clock a chime will sound letting you know the pairing was successful.

Note: These steps are for most smartphones. For some special phones, please see your phone's user's guide.

3. TEST AND USE

Your smartphone and Bluetooth® technology speaker are now paired and you are ready to play music.

To play music with the Bluetooth® technology speaker:

- a. Open the music player on your smartphone or Bluetooth® device and select one song on your music list and the Bluetooth® technology speaker will begin playing.
- b. Adjust the volume from the music player on your smartphone or Bluetooth® device.

This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment should be installed and operated with a minimum distance 20cm between the transmitter and your body.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
