April 4, 2003

RE: FCC ID: QMNRH-44
Attention: Mary Washington

I have a few comments on this Application.

1. FYI – no action needed. Please note that the audio frequency testing for Part 22 devices was changed Feb 2003. Currently the only audio tests required are those found in Part 2 (i.e. section 4.6 of the report is inaccurate).
2. Perhaps I have missed the item that would clarify the issue, but please clarify if the reason the plot and the measured value listed on the plots are due to the offset value of (i.e. the display line on the plot and the actual measured value do not appear the same – while the difference may be the offset, the report should be clear on this issue).
