QSG DIRECTIONS

Double Sided Folding

Battery Removal / Installation Dépose/Installation de la pile Extracción de la pila/Instalación Batterie entfernen/Installation

Re-Linking:
If the shutter is inactive for 5 minutes, it will go into "Power off" mode. To use the shutter again, press and hold the button for 4 seconds to power it on and it will automatically re-link to your iPhone.

Rétablissement de la connexion: Si la télécommande est inactive pendant 5 minutes, elle passera en mode « hors tension ». Pour utiliser à nouveau la télécommande, appuyez sur le bouton et maintenez-le enfoncé pendant 4 secondes pour l'allumer et la liaison sera automatiquement rétablie avec votre iPhone.

Revinculación:
Si el obturador permanece inactivo 5 minutos, entrará en modo "Apagado". Para usar el obturador de nuevo, presione y mantenga el botón 4 segundos para encenderlo y se revinculará a su iPhone automáticamente.

Neuverbinden:
Wenn der Shutter fünf Minuten lang inaktiv ist, fährt er herunter. Um den Shutter wieder zu verwenden, drücken und halten Sie den Knopf vier Sekunden lang, um ihn hochzufahren. Der Shutter verbindet sich automatisch mit Ihrem iPhone.

Troubleshooting: If you are experiencing issues with the shutter operating properly, use a paper clip or pen tip to press and hold the RESET button located on the side of the unit for 2 seconds. If it still malfunctions, it may be due to a weak battery. Install a new CR2032 battery into the remote and try again.

Résolution des problèmes: Si la télécommande ne fonctionne pas correctement, utilisez un trombone ou la pointe d'un stylo pour appuyer sur le bouton RESET (réinitialisation) situé sur le côté de l'appareil pendant 2 secondes et maintenez-le enfoncé. Si'il ne fonctionne toujours pas, la pile est peut-être déchargée. Installez une nouvelle pile CR2032 dans la télécommande et essayez à nouveau.

Solución de problemas: Si está experimentando problemas con el correcto funcionamiento del obturador, use un clip o la punta de un bolígrafo para presionar y mantener el botón RESET situado en el lateral de la unidad durante 2 segundos. Si aun así no funciona correctamente, puede ser debido a la baja batería. Instale una pila CR2032 nueva en el mando e inténtelo de nuevo.

Problemlösung: Wenn Sie Problemen bei dem Betrieb Ihres Shutters begegnen, drücken Sie den Reset-Knopf an der Seite des Geräts zwei Sekunden lang mit einer Büroklammer oder einer Bleistiftspitze herunter. Wenn immer noch Funktionsstörungen auftreten, kann dies an einer nachlassender Batterieleistung liegen. Bitte legen Sie zwei neue CR2032 in die Fernbedienung ein und versuchen Sie es erneut.

FCC STATEMENT
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:
The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without RF restriction.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Notice
This device complies with Industry Canada licence-exempt RSS standard(s).
1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Avis d'Industrie Canada
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Cet appareil numérique ne dépasse pas les Règlements sur l'interférence radio par un appareil numérique de classe B stipulés dans le Règlement sur l'interférence radio d'Industrie Canada.
