

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an Electronic Under Test (EUT) housing. On the left, the green printed circuit board (PCB) is visible, populated with various electronic components. A large, rectangular, silver-colored battery is mounted on the board. To the right of the PCB is the white plastic housing, which appears to be the back cover, showing its internal structure and mounting points. A black ruler with white markings is placed horizontally below the components, providing a scale for the photograph. The ruler shows measurements in millimeters and centimeters.
Solder Board-Component View 1	 A close-up photograph of a specific component on the PCB, likely a USB connector or a similar interface module. The component is soldered onto the board. A black ruler with white markings is placed horizontally below the component, providing a scale. The ruler shows measurements in millimeters and centimeters.

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, labeled '100A Q2-MPP-B V1.2', placed on a blue textured surface. The component is positioned next to a black L-shaped ruler with white markings in millimeters. The ruler's vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge.
Solder Board-Component View 3	 A photograph of the same green PCB component, labeled '100A Q2-MPP-B V1.2', from a different perspective. It is placed on the same blue textured surface next to the same black L-shaped ruler. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge. The ruler's vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component with various electronic components soldered onto it. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters.
Antenna View	 A photograph showing the back of a white smartphone with a black rectangular component attached to its rear. A red square highlights a circular copper coil on the black component, which is identified by a red line pointing to a label. Below the black component, the circular silver metal back of the smartphone is visible. Wireless Charging Antenna
