In re:

Request for Confidentiality

Gentlemen:

In accordance with 0.459 of CFR 47, Kyocera Corporation hereby requests confidentiality of Base Station Technical Specification, Schematics, Block Diagrams, Parts List, Antenna Specification, Theory of Operation, and Internal Photos for the subject application.

These documents contain detailed system and equipment description and related information about the product that Kyocera Corporation considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Kyocera Corporation considers that this information would be of benefit to its competitors, and that disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely

Kazuhiko Shiratori
Manager

Quality Assurance Department Wireless Access Div.
Corporate Communication Systems Equipment Div.
Kyocera corporation.

A handwritten signature in cursive script that reads "K. Shiratori".

About confidentiality of Internal Photos

We request confidentiality of Internal Photos for the subject application. Our equipments are Base Station and User Terminal for wireless internet system (iBurst system), and these equipments need high RF performance for accomplishing high performance of iBurst system. Especially a TRx Board or a PA Module of Base Station needs high RF performance. We design RF circuits to keep this performance from increasing Spurious Emission and decreasing isolation. We have know-how for pattern of RF line on printed board. And this know-how is very important. So we don't desire to open "internal photos".

Please confidentiality of Internal Photos.
