K9

Thanks for choosing OUKITEL products

Overview

Overview

Accessories

Charger

USB Cable

Battery

K9 is included an internal battery.

You can track your battery status with the icon showed on the top right of the screen. As microwave ovens, stoves, or radiators, batteries may explode when overheated.

Warning

- Use only OUKITEL-approved batteries specifically designed for your phone. Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.

Батарея

В комплект поставки K9 входит одна тренировочная батарея.

Вы можете отслеживать состояние батареи с помощью значка, показанного в правом верхнем углу экрана. Вблизи микроволновых печей, кухонных плит или радиаторов, батареи могут взорваться при перегреве.

Предупреждение

- Используйте только одобренные батареи OUKITEL, специально предназначенные для вашего телефона. Несовместимые батареи могут стать причиной серьезных травм или повреждения телефона.
- Никогда не помещайте батареи и телефоны в нагревающие устройства, например, в микроволновые печи, печи или радиаторы. При перегреве батареи могут взорваться.

شاحن

نوع نوع USB

K9 يحتوي على بطارية داخلية يمكنكم استخدامها خلال الأوقات المبرمجة في أجزاء العلوي الأمين من الشاشة. كما هو الحال في أفران الميكروويف والمواقد والمشعلات، يمكن أن تنفجر البطاقة عن زيادة حرارتها.

تحذير:

- استخدام فقط البطاريات المعتمدة من دوجي المصممة خصيصاً هتفك. يمكن أن تسبب البطاريات غير المتوافقة إصابات خطيرة أو ضرراً بهتفك.
- لا تضع البطاريات أو الهواتف على أجهزة تسخين، مثل أفران الميكروويف أو المواقد أو المشعلات. يمكن أن تنفجر البطارية عند زيادة حرارتها.

Product name : Smart Phone

Model number: K9

Operating Temperature: -10° C to 40° C

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. All essential radio test suites have been carried out.

1. Use careful with the earphone maybe possible excessive sound pressure from earphones

and headphones can cause hearing loss. 

2. CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

3.The product shall only be connected to a USB interface of version USB 2.0

4. Adapter shall be installed near the equipment and shall be easily accessible.

5. The plug considered as disconnect device of adapter

6. The device complies with RF specifications when the device used at 0mm form your body

This product can be used across EU member states.			

FCC

15.19 Labeling requirements.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to the user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information for the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio / TV technician for help.

Specific absorption rate (SAR):

This mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

The FCC Statement of Exposure to RF and the SAR limit for the United States (FCC) is 1.6 W / kg average for each gram of tissue. This device was tested for typical operations of use on the body, with the back of the phone at 1.0cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a distance of 1.0 cm between the user's body and the back of the phone. The use of belt clips, covers and similar accessories must not contain metallic components in their assembly. The use of accessories that do not meet these requirements may not meet FCC RF exposure requirements and should be avoided.

Functioning in the body

This device was tested for typical operations of use in the body. To comply with RF exposure requirements, a minimum separation distance of 1.0 cm must be maintained between the user's body and the telephone, including the antenna. Third-party accessories such as belt clips, covers and similar accessories used with this device should not contain metallic components, accessories that do not meet these RF exposure requirements and should be avoided from use on the body. Use only the supplied antenna or an approved antenna.
