Reviewing Engineer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Emission Designator
FCC ID: MTF00701
Product: SX4e GSM-1900

The attached plots show an actual occupied bandwidth measurement. For low, mid, and high band channels, the occupied bandwidth is measured at 338 kHz. The modulation type is that used for a GSM system. Therefore, the emission designator for this product is 338KGXW.

Sincerely, ..

Jeffrey Hickey
Senior Vice President
