Declaration

We, **Kyocera Corporation**, declare that the device, **FCC ID:V65E6782**, **Model Name:E6782**, does not operate in Ad Hoc mode on non-US frequencies and/or on DFS frequencies. The client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

Moreover, the 2.4G part of this device only operates on channels 1~11. All non-US frequencies and Country code selection are disabled through proprietary software and is not user changeable.

Should you have any questions or comments regarding this matter, please do not hesitate to contact me.

Sincerely yours,

Douglas Dunn

Director of Regulatory Affairs
