Model Name: CODA-5519

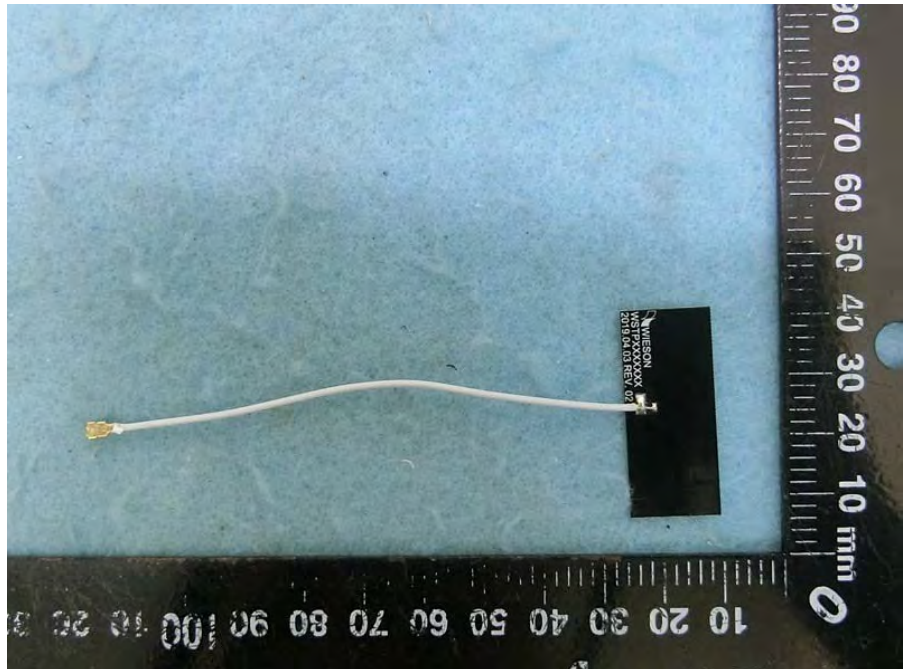

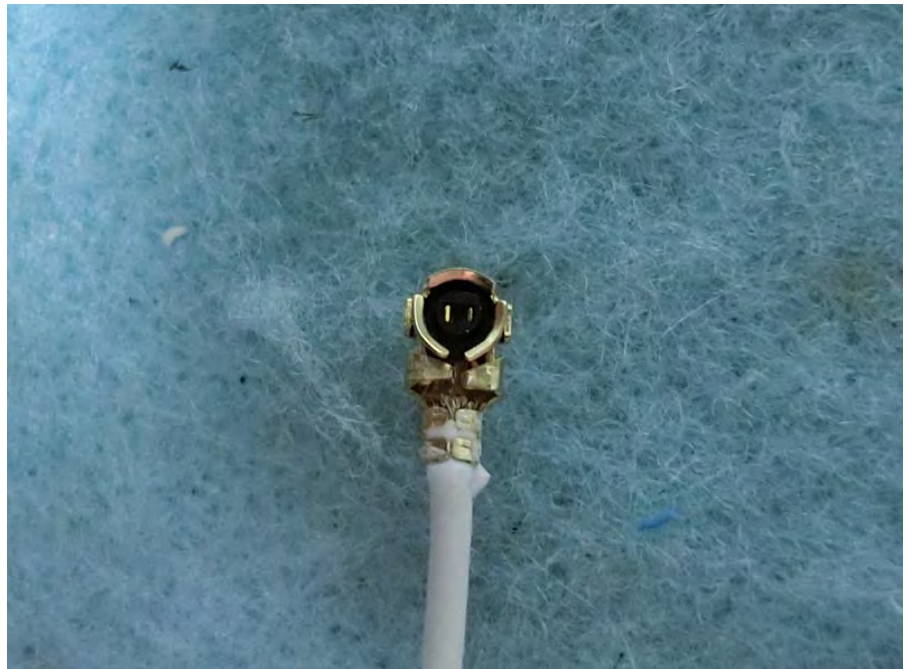

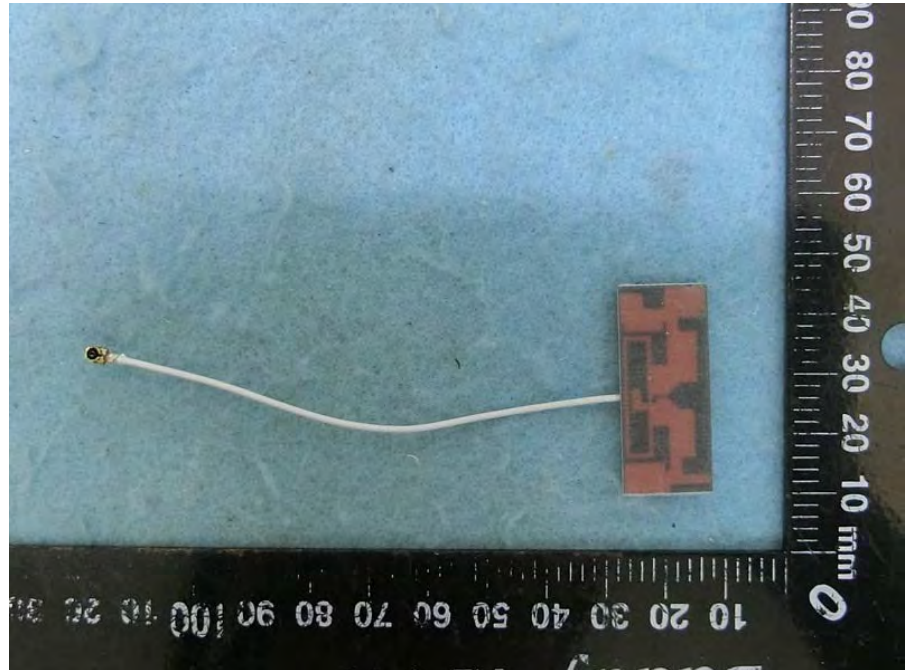

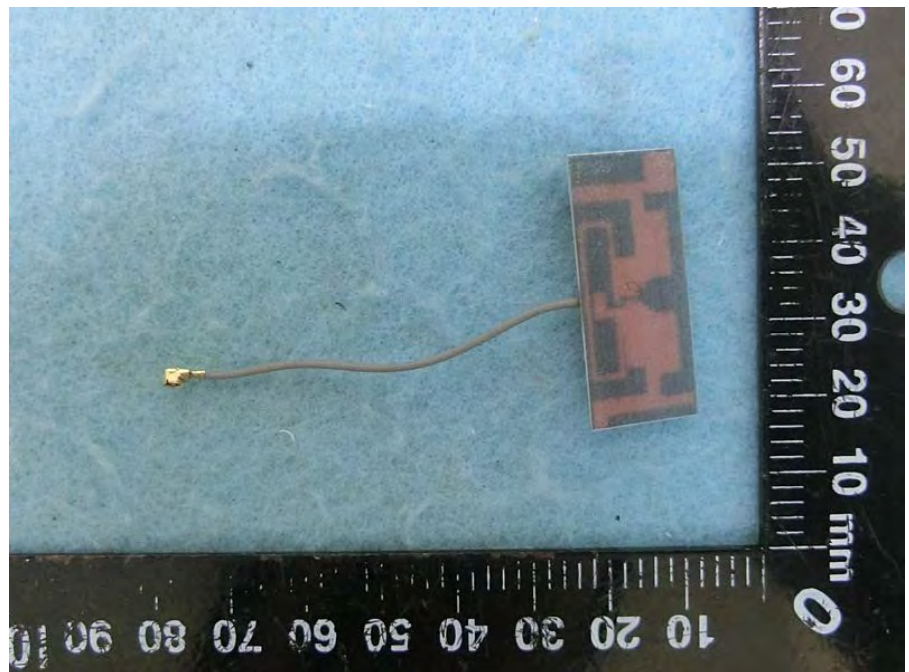

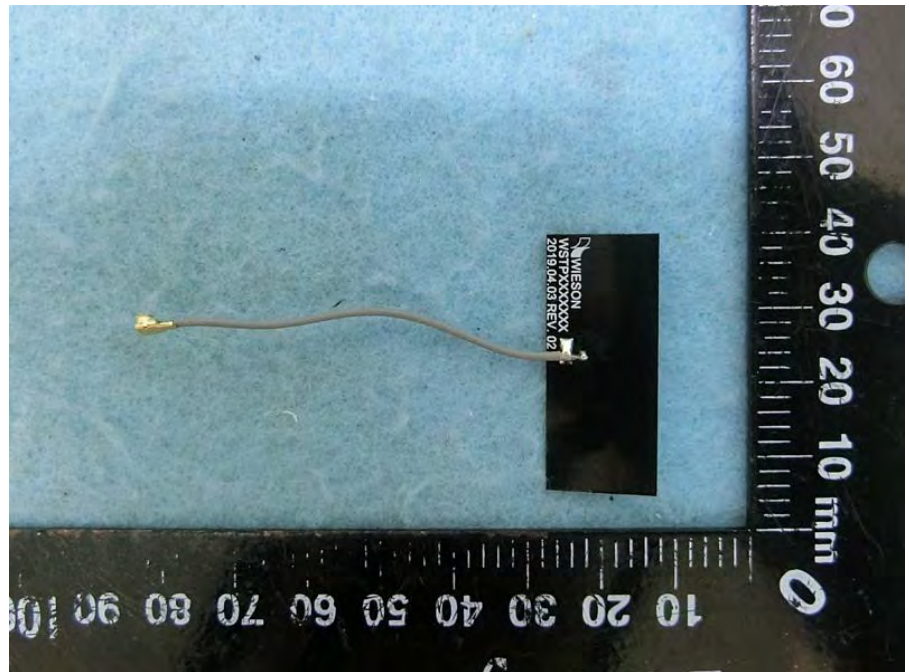

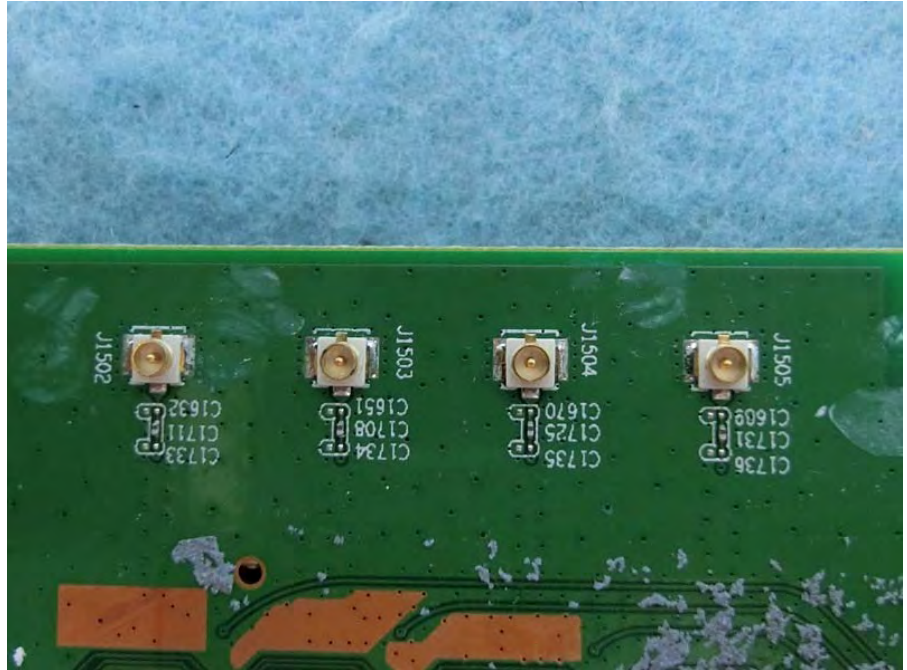

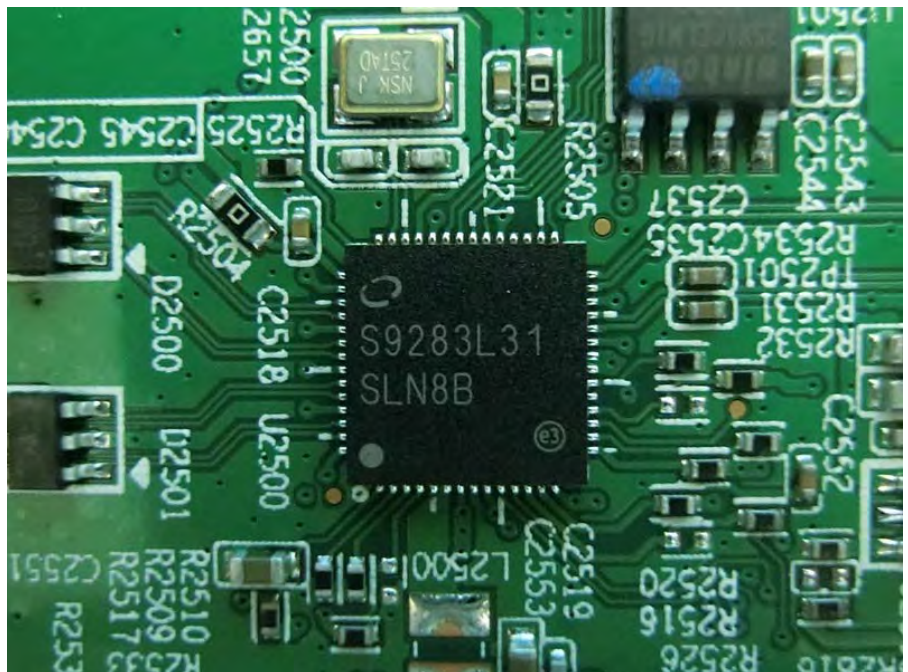

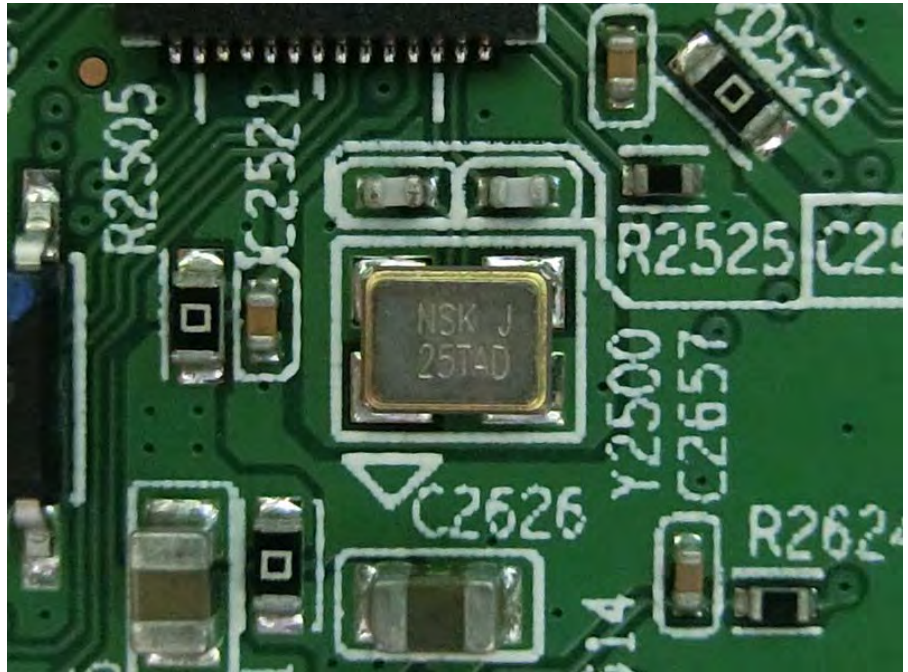

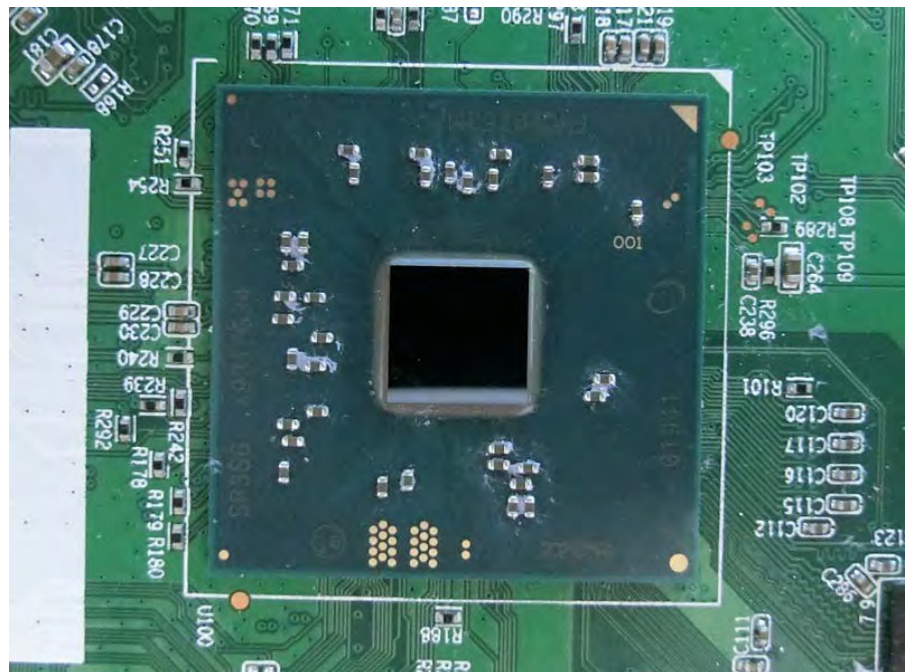

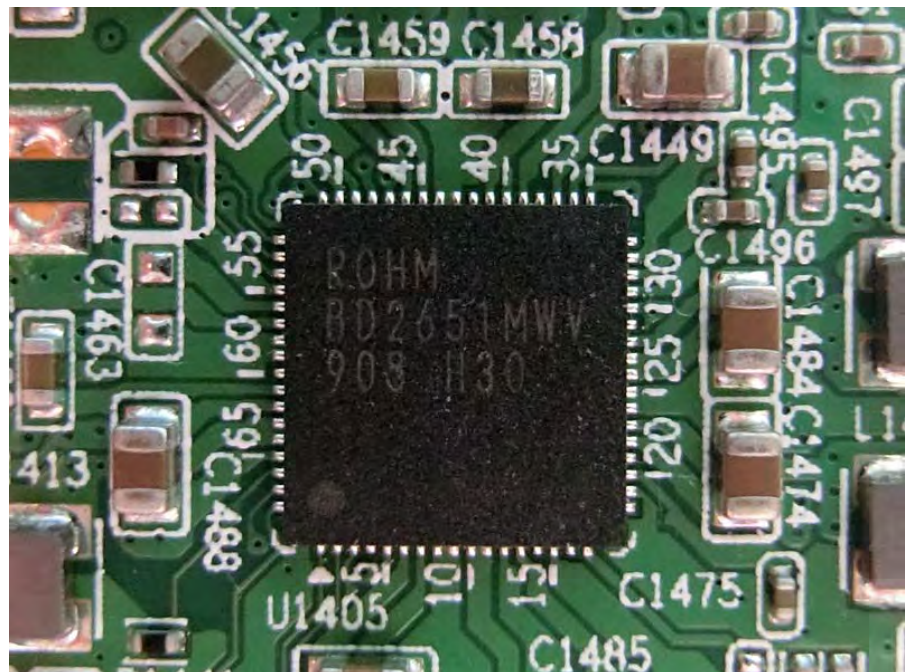

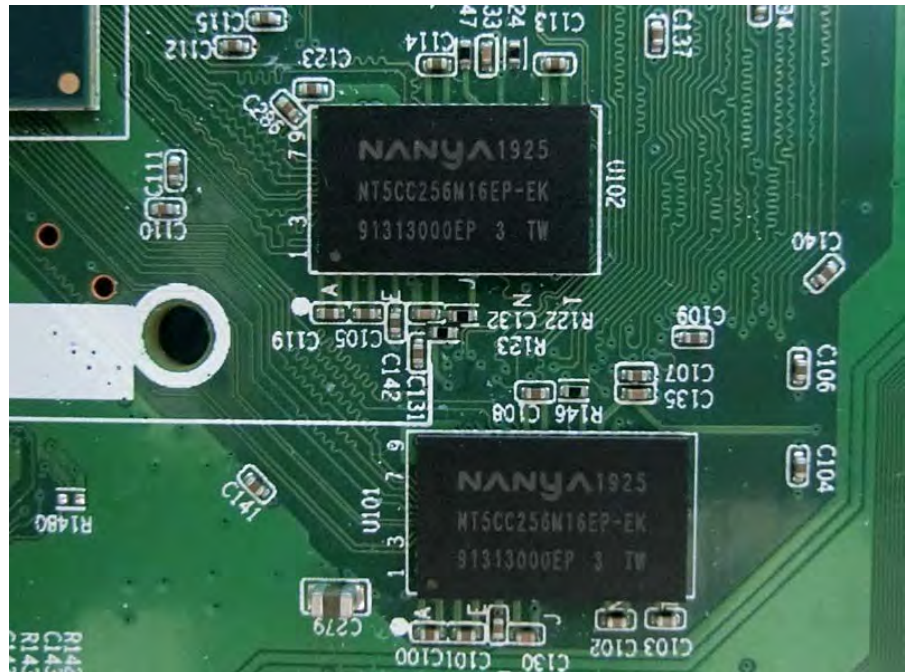

Report No. : EP020705-01

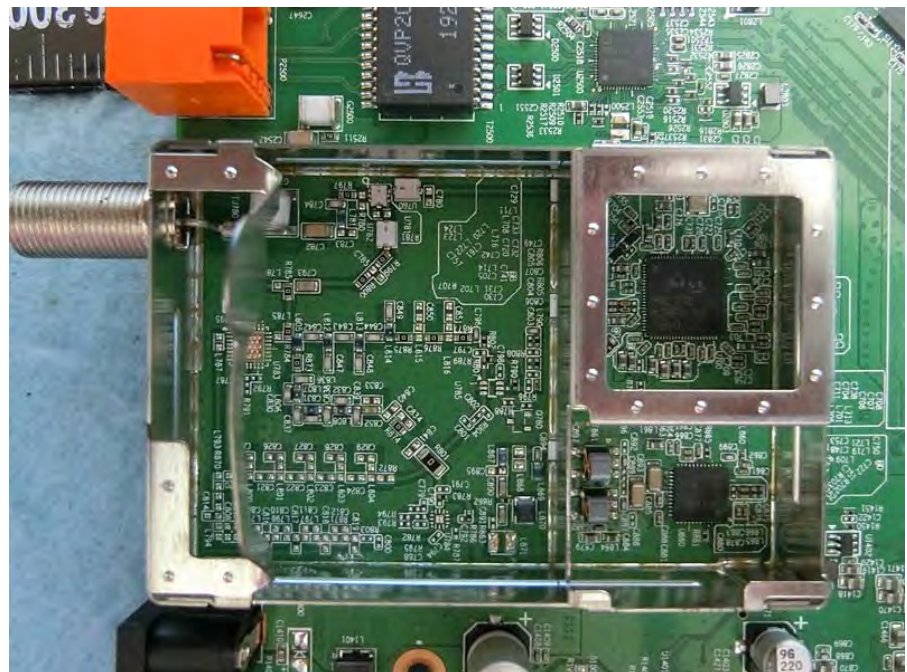

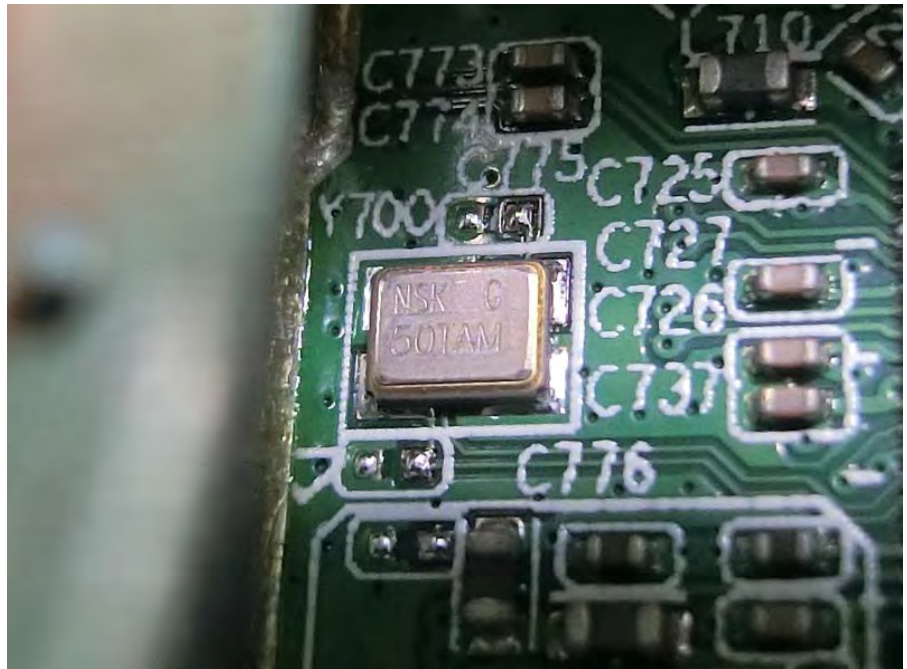

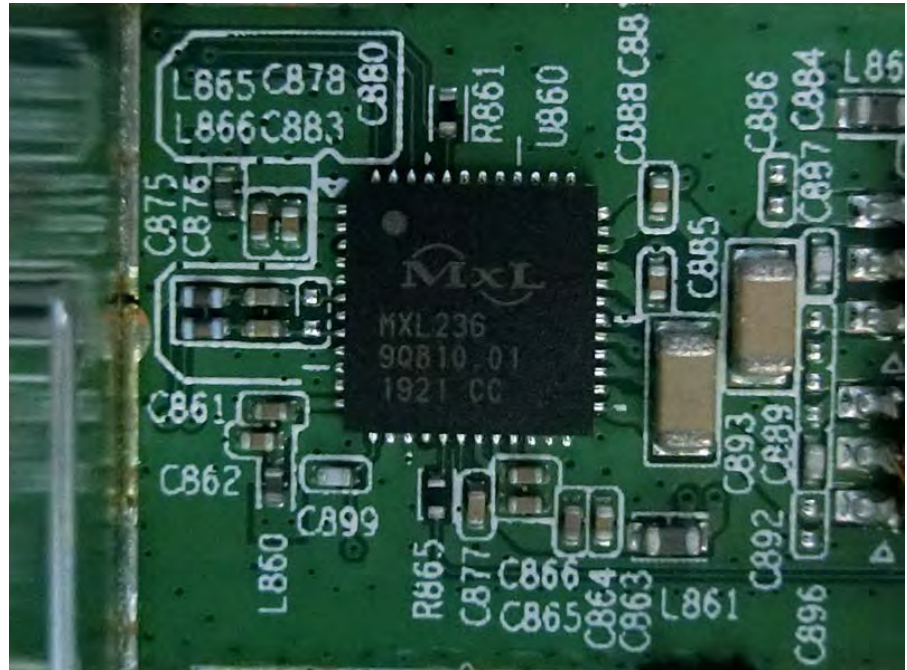

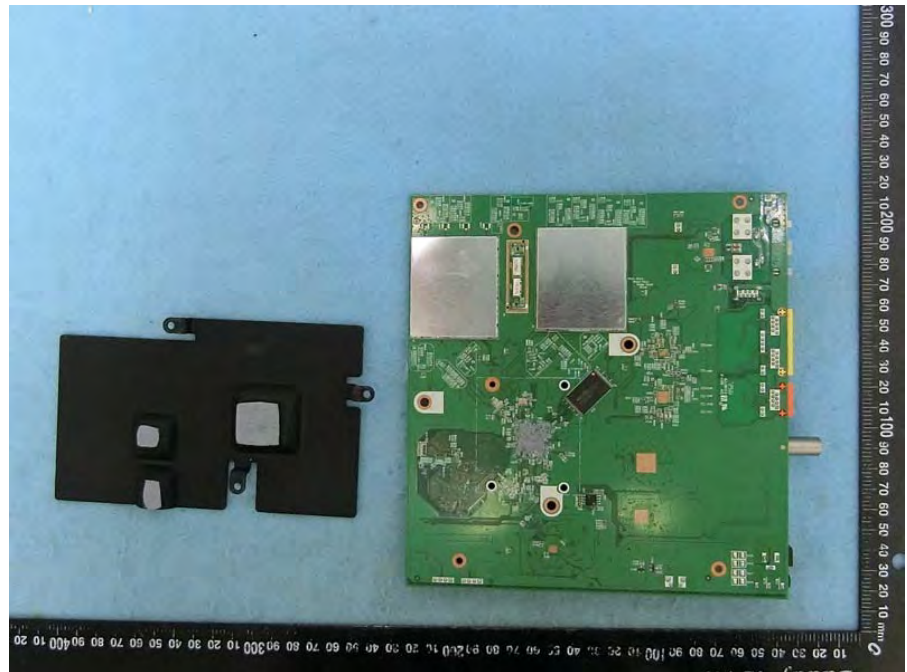

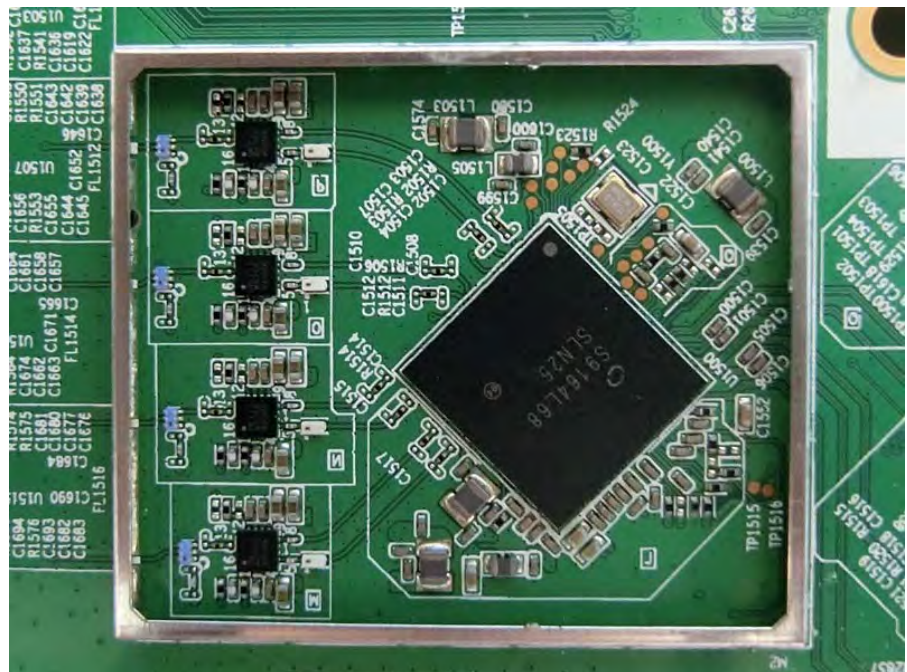

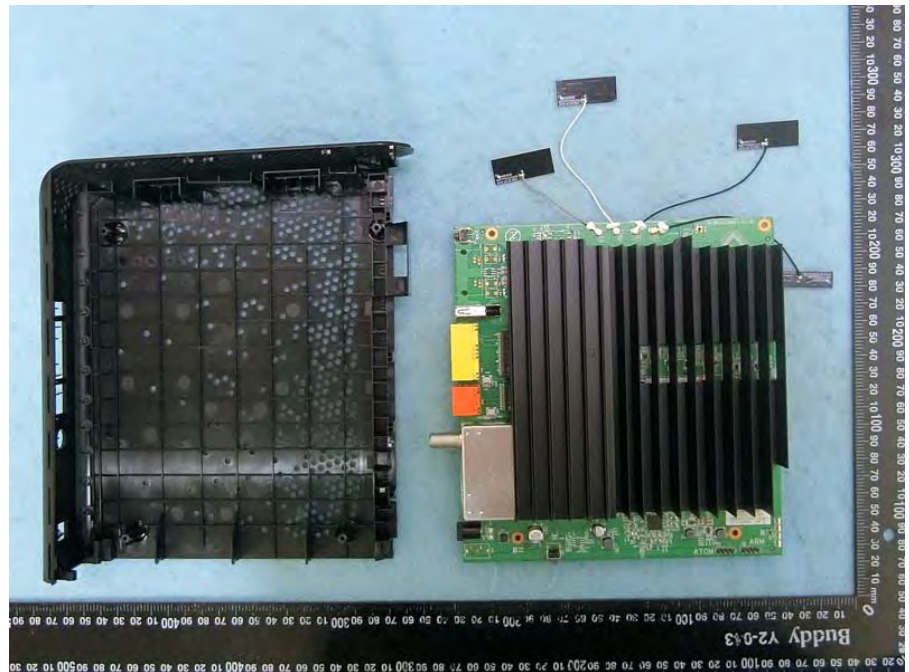

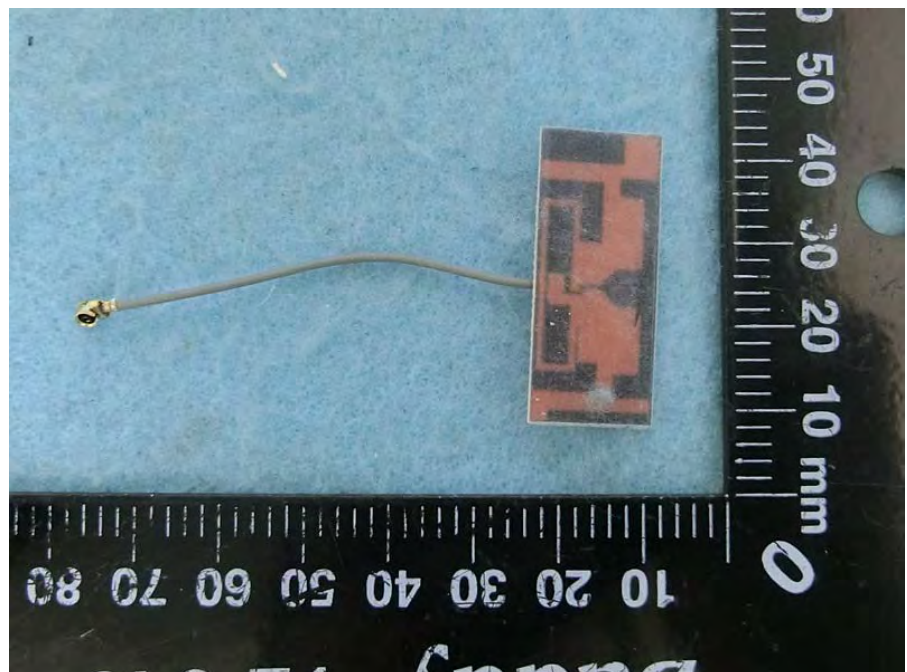

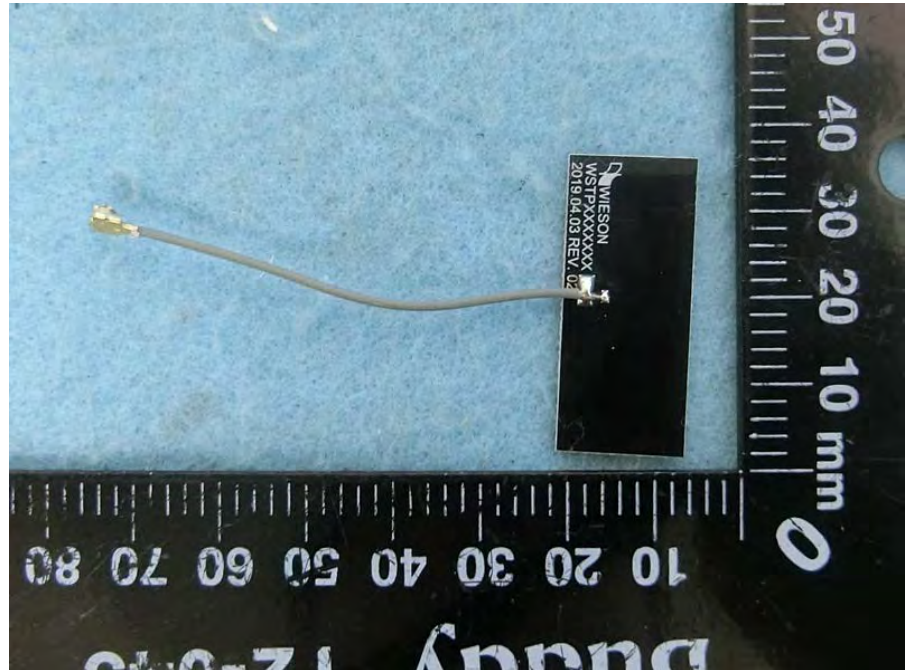

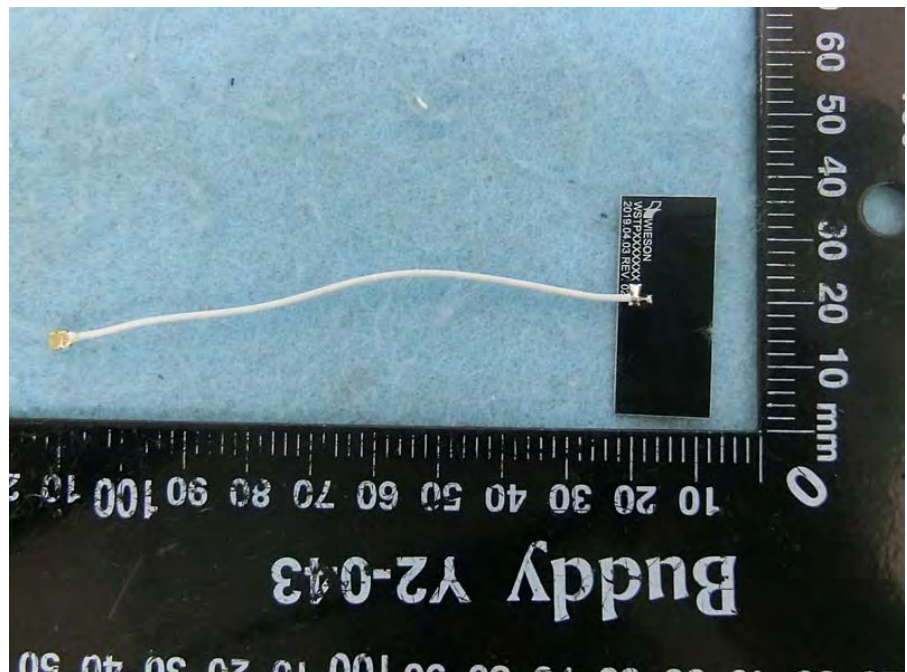

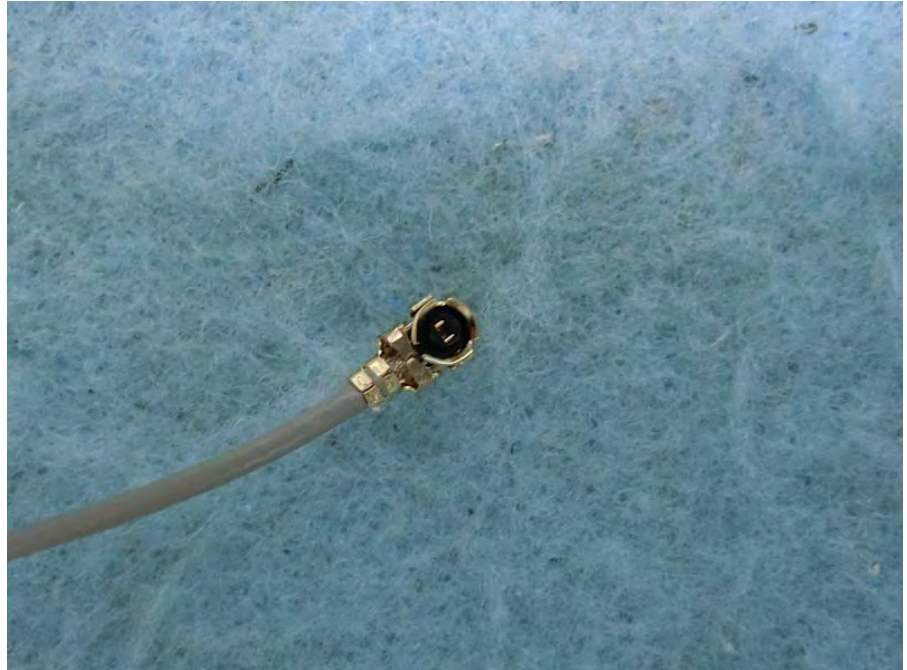

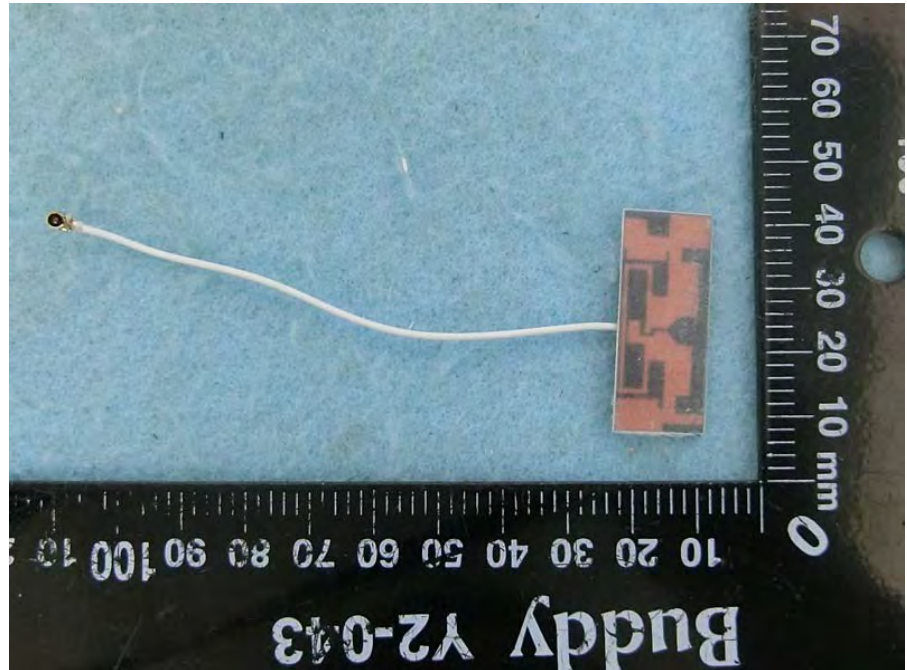

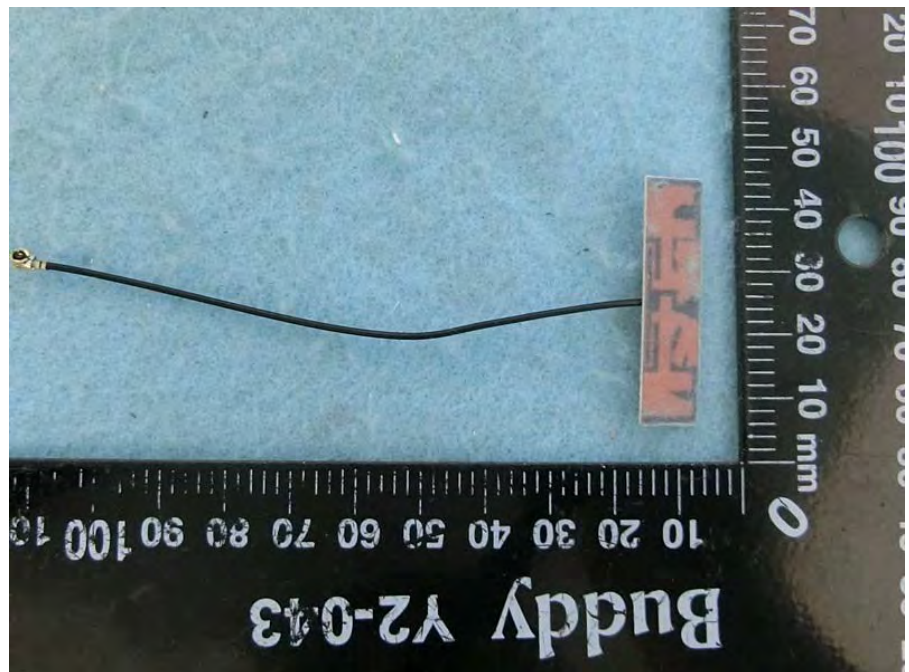

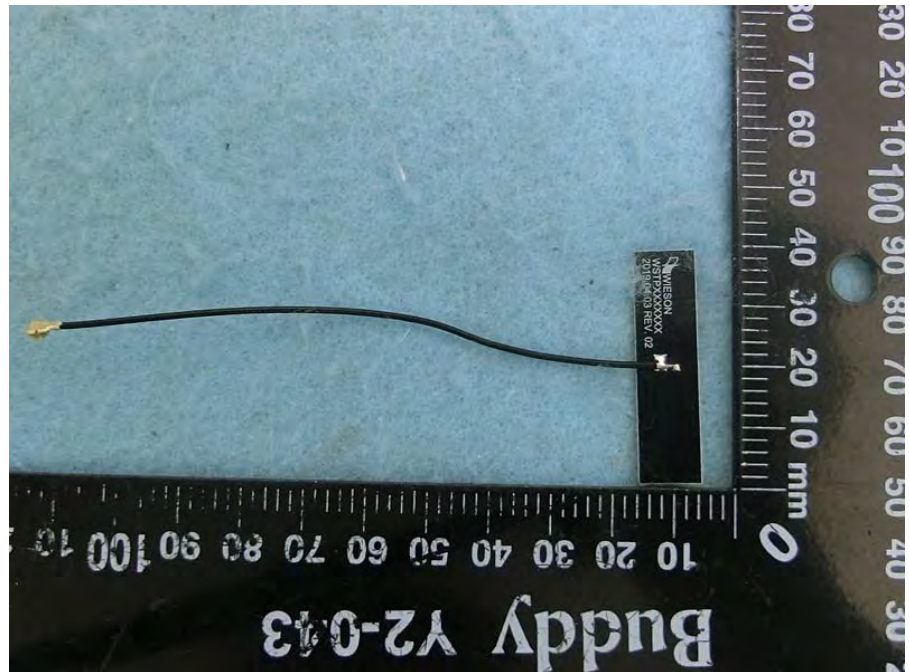

The image displays four disassembled components of a mobile phone, laid out on a light blue surface next to a ruler for scale. The components are: 1. A black plastic back cover with a textured pattern and a camera lens cutout. 2. A black plastic battery cover with a textured pattern and a small white label. 3. A green printed circuit board (PCB) with various electronic components, including a large black heat sink, a battery, and a camera module. 4. A black plastic keypad assembly with a grid of buttons and a small display screen. The ruler at the bottom indicates measurements in centimeters, ranging from 0 to 10 cm.
