| <p><b>EUT Housing and Board<br/>View 1</b></p>      |  A photograph showing the internal components of an EUT (Electronic Under Test) housing. The housing is white and oval-shaped. The internal board is visible, showing various electronic components and a green PCB. A black ruler with white markings is placed horizontally below the housing, indicating dimensions in millimeters. The background is a blue textured surface. |
| <p><b>Solder<br/>Board-Component View<br/>1</b></p> |  A photograph showing a close-up view of the solder board-component. The board is white and oval-shaped, with various electronic components and a green PCB. A black ruler with white markings is placed horizontally below the board, indicating dimensions in millimeters. The background is a blue textured surface.                                                          |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| <p>Solder<br/>Board-Component View<br/>2</p> |  A photograph showing the solder side of a circuit board component. The component is white with a circular black area in the center. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with the circular area at the top.                                                                                                                                                                         |
| <p>Antenna View</p>                          |  A photograph showing the antenna side of the same circuit board component. The component is white with a circular black area in the center. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with the circular area at the top. A red box highlights a specific area on the right side of the component, and a red line points from a label to this box. The label reads "433.925MHz Antenna". |
