Re: Application for Cellular and PCS Transceiver Class 2 Permissive Change

Kyocera Wireless Corporation (KWC) herein submits the Application for Equipment Authorization (FCC Form 731) and Exhibits for a Class 2 Permissive Change of a Cellular & PCS Transceiver, FCC ID: OVFKWC-2135.

Applicant: Kyocera Wireless Corporation  
10290 Campus Point Drive  
San Diego, CA 92121-1522

Manufacture: Kyocera Wireless Corporation  
10290 Campus Point Drive  
San Diego, California 92121

The equipment, KWC model # 2135, is for mobile station cellular and PCS system use. The 2135 is in full compliance with all parts of EIA/TIA/IS-98-B Mobile Station-Land Station Compatibility Specification, issue July 1998, and also in full compliance with all parts of ANSI J-STD-018, Recommended Minimum Performance Requirements for 1.8 to 2 GHz Code Division Multiple Access (CDMA) Personal Stations, issue July 1996.

This Class 2 Permissive Change is requested because changes were made to the model 2135 to correct a receiver sensitivity problem. The Printed Circuit Board (PCB) was modified and another ground contact point was added to the metalized paint pattern on the 2135's shroud.

Kyocera Wireless Corporation
