Question #1: Page 10 of User Manual in PDF file listed the available channel and country domain for the user to select. In accordance with FCC policy, the applicant can not depend on the end user to select proper channel segment to comply with FCC rules and regulation. Please provide the drop down list as indicated in page 10 and if the selection is beyond (2412 - 2462 MHz), please provide technical description on how the applicant will be able to limit the device to operate within 2412- 2462 MHz operation only.

Ans #1: [Please refer to the attached for revised user manual.](#)

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
