WHAT'S IN THE BOX

Center of the crib (long side)

- The rechargeable battery in the parent unit is built-in.
- Use only the power adapters supplied with this product
- Make sure the parent unit and the baby unit are not connected to the switch controlled electric outlets. Connect the power adapters in a vertical or floor mount position only. The adapter prongs are not designed to hold the weight of the parent unit and the baby unit, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapter may not properly connect to the outlets. Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Charge the parent unit battery before use

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, keep the parent unit connected to AC power.

🖹 Notes

- Before using the baby monitor for the first time, charge the parent unit battery for 12 hours. When the parent unit battery is fully charged, the battery icon becomes solid [
- The standby time varies depending on your actual use.

The parent unit turns on automatically after connecting to the power socket, and the welcome screen appears. You can press **U** Power to turn the parent unit on or <u>press and hold</u> to turn it off.

The battery icon indicates the battery status (see the following table).

Battery indicators	BATTERY STATUS	Action
The screen displays 🛄 and 🧔. The 💷 LED light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid	The battery is fully charged.	To keep the battery charged, connect it to AC power when in use.
Raise the parent unit antenna for better reception		

INSTALL AND POWER ON THE BABY UNIT

Install the Baby Unit onto the First extension, and connect the adapter to the end of the cable and the power supply to power up the Baby Unit. Camera lens and surface

PROTECT YOUR PRIVACY AND ONLINE SECURITY

VTech cares about your privacy and peace of mind. That's why we've put together a list of industryrecommended best practices to help keep your wireless connection private and your devices protected when online. We recommend you carefully review and consider complying with the following tips.

- Ensure your wireless connection is secure. Before installing a device, ensure your router's wireless signal is encrypted by selecting the "WPA2-PSK
- with AES" setting in your router's wireless security menu.
- Change default settings.
- Change your wireless router's default wireless network name (SSID) to something unique. Change default passwords to unique, strong passwords. A strong password:
- Is at least 10 characters long.
- Is complex.
- Does not contain dictionary words or personal information. - Contains a mix of uppercase letters, lowercase letters, special characters and numbers.
- Keep your devices up to date.
- Download security patches from manufacturers as soon as they become available. This will ensure you always have the latest security updates.
- If the feature is available, enable automatic updates for future releases.
- Disable Universal Plug and Play (UPnP) on your router. UPnP enabled on a router can limit the effectiveness of your firewall by allowing other network devices
- to open inbound ports without any intervention or approval from you. A virus or other malware program could use this function to compromise security for the entire network For more information on wireless connections and protecting your data, please review the following
- resources from industry experts:
- Federal Communications Commission: Wireless Connections and Bluetooth Security Tips -
- www.fcc.gov/consumers/guides/how-protect-yourself-online. . U.S. Department of Homeland Security: Before You Connect a New Computer to the Internet -

latest information and supports, go and check the online help topics and online

Use your smartphone or mobile device to access our online help.

- Go to https://help.vtechphones.com/RM5887HD; OR
- Scan the QR code on the right. Launch the camera app or QR code scanner app on your smartphone or tablet. Hold the device's camera up to the QR code and frame it. Tap the notification to trigger the redirection of the online help.
- If the QR code is not clearly displayed, adjust your camera's focus by moving your device closer or further away until it is clear.

If you would like to contact us, visit https://help.vtechphones.com/cs.

You can also call our Customer Support at 1-844-848-8324 (1-844-84-VTECH) [in US] or 1-888-211-2005 [in Canada] for help.

OF AUTO SOFTWARE AND FIRMWARE UPDATE

To ensure that your HD video monitor is always at its best performance, the Parent Unit will prompt a message and ask you to update its software and the Baby Unit's firmware when there are new versions available. Select "Now" to reboot the system, or switch off and on the Parent Unit later to reboot the system into the latest software.

- To check if your device is running on the latest software, or to update your device software, go to:
- > Software Update.

Connect your HD video monitor with home Wi-Fi network

- You must connect your video monitor to your secured home Wi-Fi network in order to receive the latest software and firmware updates. To set the Wi-Fi up, go to:
- > Configure Wi-Fi.
- 🖹 NOTE

Make sure the Baby Unit is on when you set up the Wi-Fi network.

Can I turn th unit display: off but keep sounds fron unit? Why is the k

DOWNLOAD APP FOR MOBILE ACCESS

Download the free **MyVTech Baby Pro** mobile app and install it to a mobile device, then use your mobile device and the mobile app to monitor your baby remotely.

1. Press MENU/SELECT when the parent unit is idle.

2. Go to Connect Mobile Phone.

3. Scan the QR code in the parent unit to download the app into your mobile device if you have not installed the app yet. 4. Follow the instructions in the mobile app to set up and pair your baby unit to the mobile app.

Alternatively, you can download the mobile app from the App Store or Google Play store.

Install MyVTech Baby Pro mobile app

1. Browse the App Store 🙆 or the Google Play store 🔟. 2. Search for the mobile app with the keyword "myvtech baby pro". 3. Download and install the **MyVTech Baby Pro** mobile app to your mobile device.

Scan the QR codes on the right to get the app.

🖹 NOTE

OR

 Make sure your mobile device meets the minimum requirement for the mobile app.

Minimum requirement

The mobile app is compatible with: Android[™] 6.0 or later; and • iOS 12 or later.

2 After installing the mobile app, follow the instructions in the mobile app and parent unit to set up and pair your baby unit.

In your mobile device:

1. Tap 🎑 to run the mobile app in your mobile device, and then create a user account. 2. We recommend that you use common webmail services, such as Google Gmail for registration of your user account. Check your email (and Spam folder), and activate your new camera account via the email link, then sign in to your account. 3. Follow the instructions in the mobile app to pair the camera. Tap =, then Add Camera in the mobile app to get started.

Seneral product care

To keep this product working well and looking good, follow these guidelines:

Avoid placing it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps)

- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- Clean with a soft damp cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean under running water. DO NOT use cleaning spray or liquid cleaners.
- Make sure the parent unit and the baby unit are dry before you connect them to the mains again.

STORAGE

When you are not going to use the video monitor for some time, store the parent unit, the baby unit and the adapters in a cool, dry place.

Frequently asked questions

Below are the guestions most frequently asked about the video monito

Can I turn the parent unit display screen off but keep hearing sounds from the baby unit?	Yes, press $\textcircled{0}$ LCD ON/OFF on the parent unit to turn off the screen. The parent unit display will also dim automatically after being inactive for some time. In both instances, you will still be able to hear all sounds from the baby unit. Press any key to turn the screen back on.
Why is the baby unit not responding normally?	Try the following (in the order listed) for a common cure: 1. Disconnect the power to the baby unit. 2. Wait a few minutes before connecting power back to the baby unit. 3. Reboot the parent unit.
Why is my screen in black and white?	The baby unit has a light sensor that measures ambient light. When the ambient light is dim, such as during night time or in a dark room, the baby unit activates its infrared LEDs, and displays the camera images in black and white night vision.
Why does my baby unit show offline? Why is the connection lost every now and then?	The baby unit may have lost connection to the Wi-Fi router. Check your network and router settings.
	Other electronic products may cause interference with your baby unit. Try installing your baby unit as far away from these electronic devices as possible.
Why can't I hear a sound/Why can't I hear my baby crying?	The parent unit speaker volume may be too low. Press VOL + on the parent unit to increase the volume.
	You may have set a low sound sensitivity level. Set the sound sensitivity to a

higher level. For details, go to www.vtechphones.com for online help topics

When both parent unit and app are viewing the camera simultaneously, the video quality will be optimised to deliver the best possible viewing result

THE RBRC SEAL

The RBRC seal on the lithium-ion battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada. The program provides a convenient alternative to placing used lithium-ion batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation makes it easy for you to drop off the spent product at local retailers participating in the program or at authorized VTech product service centers. Please call 1 (800) 8 BATTERY* for information on Li-ion battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources

The RBRC Seal and 1 (800) 8 BATTERY[®] are registered trademarks of Call2recycle, Inc.

FCC AND IC REGULATIONS

FCC Part 15

NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio r television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the erference by one or more of the following measures

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receive

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void

the user's authority to operate the equipmen This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FC criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in 20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from your face This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B)

Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device. The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

This product meets the applicable Innovation. Science and Economic Development Canada technical specifications.

RF radiation exposure statemen

The product complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

California Energy Commission battery CHARGING TESTING MODE

This video monitor meets the California Energy Commission (CEC) regulations for energy consumption. Your video monitor is set up to comply with the energy-conserving standards right out of the box. Follow the instructions to install and charge the battery. The CEC battery charging testing mode is activated while charging. Even if the parent unit is paired to camera units, the CEC battery charging testing mode is activated while it is powered off and charging.

Stimulateurs cardiaques implantés dans l'organisme

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil): 'organisme 'Wireless Technology Research, LLC (WTR)', une irme de recherche indépendante, a mené une évaluation oluridisciplinaire des interférences entre les téléphones sans fil oortaitis et les stimulateurs cardiaques implantés dans l'organisn prtatifs et les stimulateurs card Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins:

- Avis aux détenteurs de stimulateurs cardiagues Vous devriez maintenir les dispositifs sans fil à au moins six ouces du simulateur cardiaque
- is ne doivent PAS placer le téléphone sans fil directement sur e stimulateur cardiaque, tel que dans une poche de chemise, orsque celui-ci est en marche.
- L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci.

Champs électromagnétiques (EMF)

Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons aujourd'hui.

LIMITED WARRANTY

What does this limited warranty cover?

he manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you" that the Product and all accessories provided in the sales backage ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This nited warranty extends only to the Consumer for Produce burchased and used in the United States of America and

What will VTech do if the Product is not free from defect in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period. VTech's authorized service epresentative will replace at VTech's option, without charge, Materially Defective Product. If we choose to replace the Product, we may replace it with a new or refurbished oduct of the same or similar design. We will retain defective parts, modules, or equipment. Replacement of the Product, at VTech's option, is your exclusive remedy, VTech will return the replacement Products to you in working ondition. You should expect the replacement to take approximately 30 days.

How long is the limited warranty period?

he limited warranty period for the Product extends for ONE YEAR from the date of purchase (90 days on products ourchased as Refurbished*). This limited warranty also applies to the replacement Product for a period of either (a) 90 days from the date the replacement Product is shipped o you or (b) the time remaining on the origin warranty (90-day limited warranty on products that are purchased as Refurbished*); whichever is longer,

*Refurbished products purchased from our online store carry a 90-day replacement warranty.

What is not covered by this limited warranty?

- This limited warranty does not cover
- Product that has been subjected to misuse, accident. shipping or other physical damage, improper installation abnormal operation or handling, neglect, inundation, fire water or other liquid intrusion; or
- . Product that has been damaged due to repair, alteration or modification by anyone other than an authorized
- service representative of VTech: or 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or
- antenna systems; or 4. Product to the extent that the problem is caused by use
- with non-VTech accessories; or . Product whose warranty/quality stickers, product serial
- number plates or electronic serial numbers have been removed, altered or rendered illegible; or Product purchased, used, serviced, or shipped for repai from outside the United States of America or Canada, or
- used for commercial or institutional purposes (including but not limited to Products used for rental purposes); Product returned without a valid proof of purchase (see item 2 below); or
- 8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the

How do you get warranty service?

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are esponsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return replaced Product under this limited warranty. ansportation, delivery or handling charges are prepaid VTech assumes no risk for damage or loss of the Product in

What must you return with the Product to get warranty

- 1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
- 2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and
- the date of purchase or receipt; and Provide your name, complete and correct mailing
- address, and telephone number

Other limitations

This warranty is the complete and exclusive agreement etween you and VTech. It supersedes all other written o oral communications related to this Product. VTech provide no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Produc here are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritter warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/ provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special incidental, consequential, or similar damages (including but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.
