Introduction

How do I pair two earbuds with my phone?

- Please make sure both the earbuds and the charging case are fully charged before first use.

- Step 1

Take both earbuds out of the charging case and both earbuds will power on and start pairing automatically.(If the earbuds are not connected to your device for more than 5 minutes, the earbuds will automatically turn off.)

Press the MFB button for about 3 seconds to manually turn on the earbuds when prompted "Power on".

The indicator light of one earbud will flash orange and white alternately, and the indicator light of the other earbud will slowly flash white when paired successfully

- Step 2

Enable the Bluetooth pairing mode on your phone device, search and select "J66" to connect. (You should hear a voice prompt "connected" when wearing earbuds.)

- If indicator light of earbud is off,it means the phone is connected

- Automatic connection

By default, the earbuds will connect the last paired phone automatically when power on.

- Prompt

1. If you have any problem pairing the two earbuds with your phone, put the earbuds back in the charging case and repeat the above steps.
2. These earbuds can be used not only together, but also individually
If you want to use single earbud, just take one earbud out of the case and connect it to your phone. or when using two earbuds, manually turn off one earbud or put one back in the charging case and you'll be able to use the other one earbud alone.
