

Wireless Mouse

MW162

Instruction

Using area: Tablet PC , Laptop, Desktop Computer.

Power on/off : Fold the mouse to turn it on. Unfold the mouse to turn it off.

Pairing steps:

1. Take out the nano receiver from the slot on the bottom case;
2. Plug the nano receiver into an available USB port on your computer;
3. Unfold the mouse to turn it on , now your mouse will connect to your computer automatically.

Specifications

Working Hz: 2.4G	Voltage: 3.7V
Modulation: GFSK	Starting current: $\leq 12.5\text{mA}$
Working current: $\leq 4.5\text{mA}$	Low voltage demand: $\leq 3.0\text{V}$
Awak up: pressing any key	Charging time: 2.5H
Battery life: 300 times circulation	Working time: 60H
Standby time: 30 days	
DIP resolution rate: 800-1200-1600	
Working distance: $>8\text{m}$ (open space and straight distance)	
Sleeping time: about 10 minutes (no any pressing)	

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable condition without restriction.
