FCC ID: 2AYDI-MURABZ

Product Name: SmartRock Long Range

Applicant: Giatec Scientific Inc.

Class II Permissive Change

Dear Examiner,

This is to request a Class II Permissive change for the SmartRock Long Range product family originally granted in May 2024.

The change under this application is to add the SmartRock Long Range product family with a change of the antenna type from the previous listing; rated with lower gain than the original. The transmitter module itself has not changed.

Sincerely,

Mustafa Salehi

Sr. Director, Hardware Development
