

Label Information Model: TLP301

1. Users are able to access the information in no more than four steps in a device's menu.

The actual steps are:

Step 1 – From the main menu, click "Settings"

Step 2 – In settings, click "account and info"

Step 3 – In account and info, click on "legal and regulatory"; this will display the e-label

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.

Yes. The information is stored on the device and does not require any special accessories or supplemental plug-ins to be accessed.

3. The FCC ID, warning statements, or other information must be displayed electronically in a manner that is clearly legible without the aid of magnification.

Yes. The FCC ID, warning statements, and other required information are electronically displayed in a clearly legible manner without the need for magnification.

4. Both regulatory information and dedicated exclusive application(s) or script(s) must be secured and implemented in a factory-set-unalterable format. The regulatory information must be capable of being retrieved and displayed locally, and under the control of the end user in possession of the product. The method must be secure, such that the application or script ensures that the regulatory information correctly displayed.

Yes. The regulatory information and applications/scripts are secured, factory-set, and unalterable, ensuring correct and local retrieval under the end user's control.
